## Bicentennial

Happy Birthday, America. You've come a long, long way. In April of this year you celebrated your 200th birthday dating from the Battle of Lexington and Concord and the beginning of the long struggle for human freedom. Some of those years were bloody with wars, others throbbed with the pulse of one of history's highest human adventures—the quest for life, liberty, and the pursuit of happiness.

Through half of that history Tech has played a part, at first as a United States Arsenal dating from Civil War days. The grounds served as an army post and a supply depot. Soldiers were stationed here during Reconstruction days, and on until the Spanish-American War.

Then in 1912, the arsenal grounds became a school where young adults prepare themselves to play their active part in our nation's day to day life. Through the years Tech has won repeated recognition in such patriotic projects as Freedom's Foundation and the Francis Bellamy Awards.

The nation and the school have seen a lot of history and so the 1975 Cannon Yearbook salutes the bicentennial year. Happy Birthday, America, and congratulations, Tech! You've come a long, long way.

## Almanac

And what could be more appropriate to call up the historic years than an almanac—a typically American production since 1732 when Benjamin Franklin introduced POOR RICHARD. The almanac is an old fashioned “compendium” (collection) of odd and useful information, complete with important dates, home remedies and “did you know” articles. In old times no home was without one. It is probable that Abraham Lincoln learned to read with an almanac.

During the years when Tech was an arsenal, James Whitcomb Riley went traveling with a medicine show. In those days patent medicines like liver pills and stomach bitters advertised their remarkable cures by publishing almanacs. Later James Whitcomb Riley was to become loved as the Hoosier Poet and to make his home on Lockerbie Street, within walking distance of Tech. The home is now the heart of a community redevelopment project.

In the spirit of Tech’s part in the bicentennial observance, the Tech almanac is presented as a guide to pleasant living and happy memories.

# Ghosts relive Arsenal days

An encampment of soldiers on Michigan Street hardly dreamed that a century later the same grounds they occupied would echo to the footsteps of Tech pupils on their way to class.

In 1865, at the close of the Civil War, the Arsenal building was erected. During the Reconstruction era, others followed. Soldiers slept in the Barracks; sentries and prisoners occupied the Guard House. From his home in the West Residence, the commandant directed the storing of munitions in the Magazine, and in the Artillery Building (now torn down.) The Barn in those days stored cavalry supplies.

During the Spanish-American War the arsenal was witnessing its last warlike years.

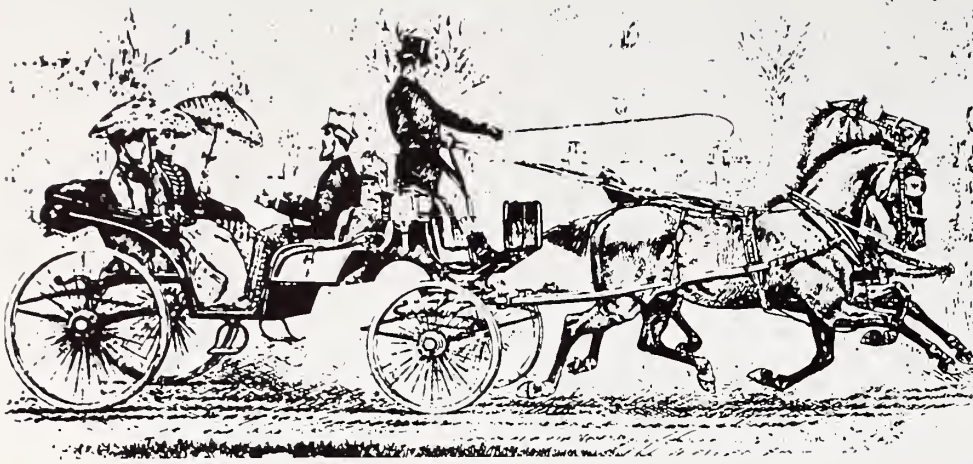

In 1912 the grounds and building became Arsenal Technical High School. Instead of the bugle calling reveille, bells were to summon pupils to class for the next sixty-odd years.

REMNANTS of the old days still speak in the ticking of the Arsenal clock. The Guard House still has barred cells in its basement. The West Residence, restored last summer, holds mystery in its circular staircase, and the Barn still stands.

## The way we were...Yesteryear at Tech

# Prom Night 1974

In the Spring of 1974, for the first time, the juniors and the seniors met together for a fabulous, fun-filled evening of dancing and dining—the Junior-Senior Prom. The evening went very smoothly with the election of a handsome Junior King Frank Kelly and a lovely Junior Queen Caron Bruce (center picture). A lot of people looked forward to this prom and they were well pleased with the results.

Before the dance started, dinner was served in the lovely Hilton Ballroom. Then, to top off the evening, the couples had live entertainment by the Soul Relations Show Band. Along with the music came the “Boogie”, “Bump” and the Soul Train dance which lasted till midnight.

If you went to the Prom this year, we just know you had a boss time. See you next year.

# Techsville 1975

"Hey, Freshie!" screamed anxious crowds of upperclassmen all through the year as they watched their fellow students do things only a rookie would do, (even if the rookies sometimes were sophomores, juniors and seniors.) We also recall purchasing elevator and swimming pool tickets and selling campus maps.

Throughout the school year, we all had to visit our friendly neighborhood Bookstore for books and supplies, even though some of the lines extended out the door of the basement of the Arsenal. We also remember being late to class and

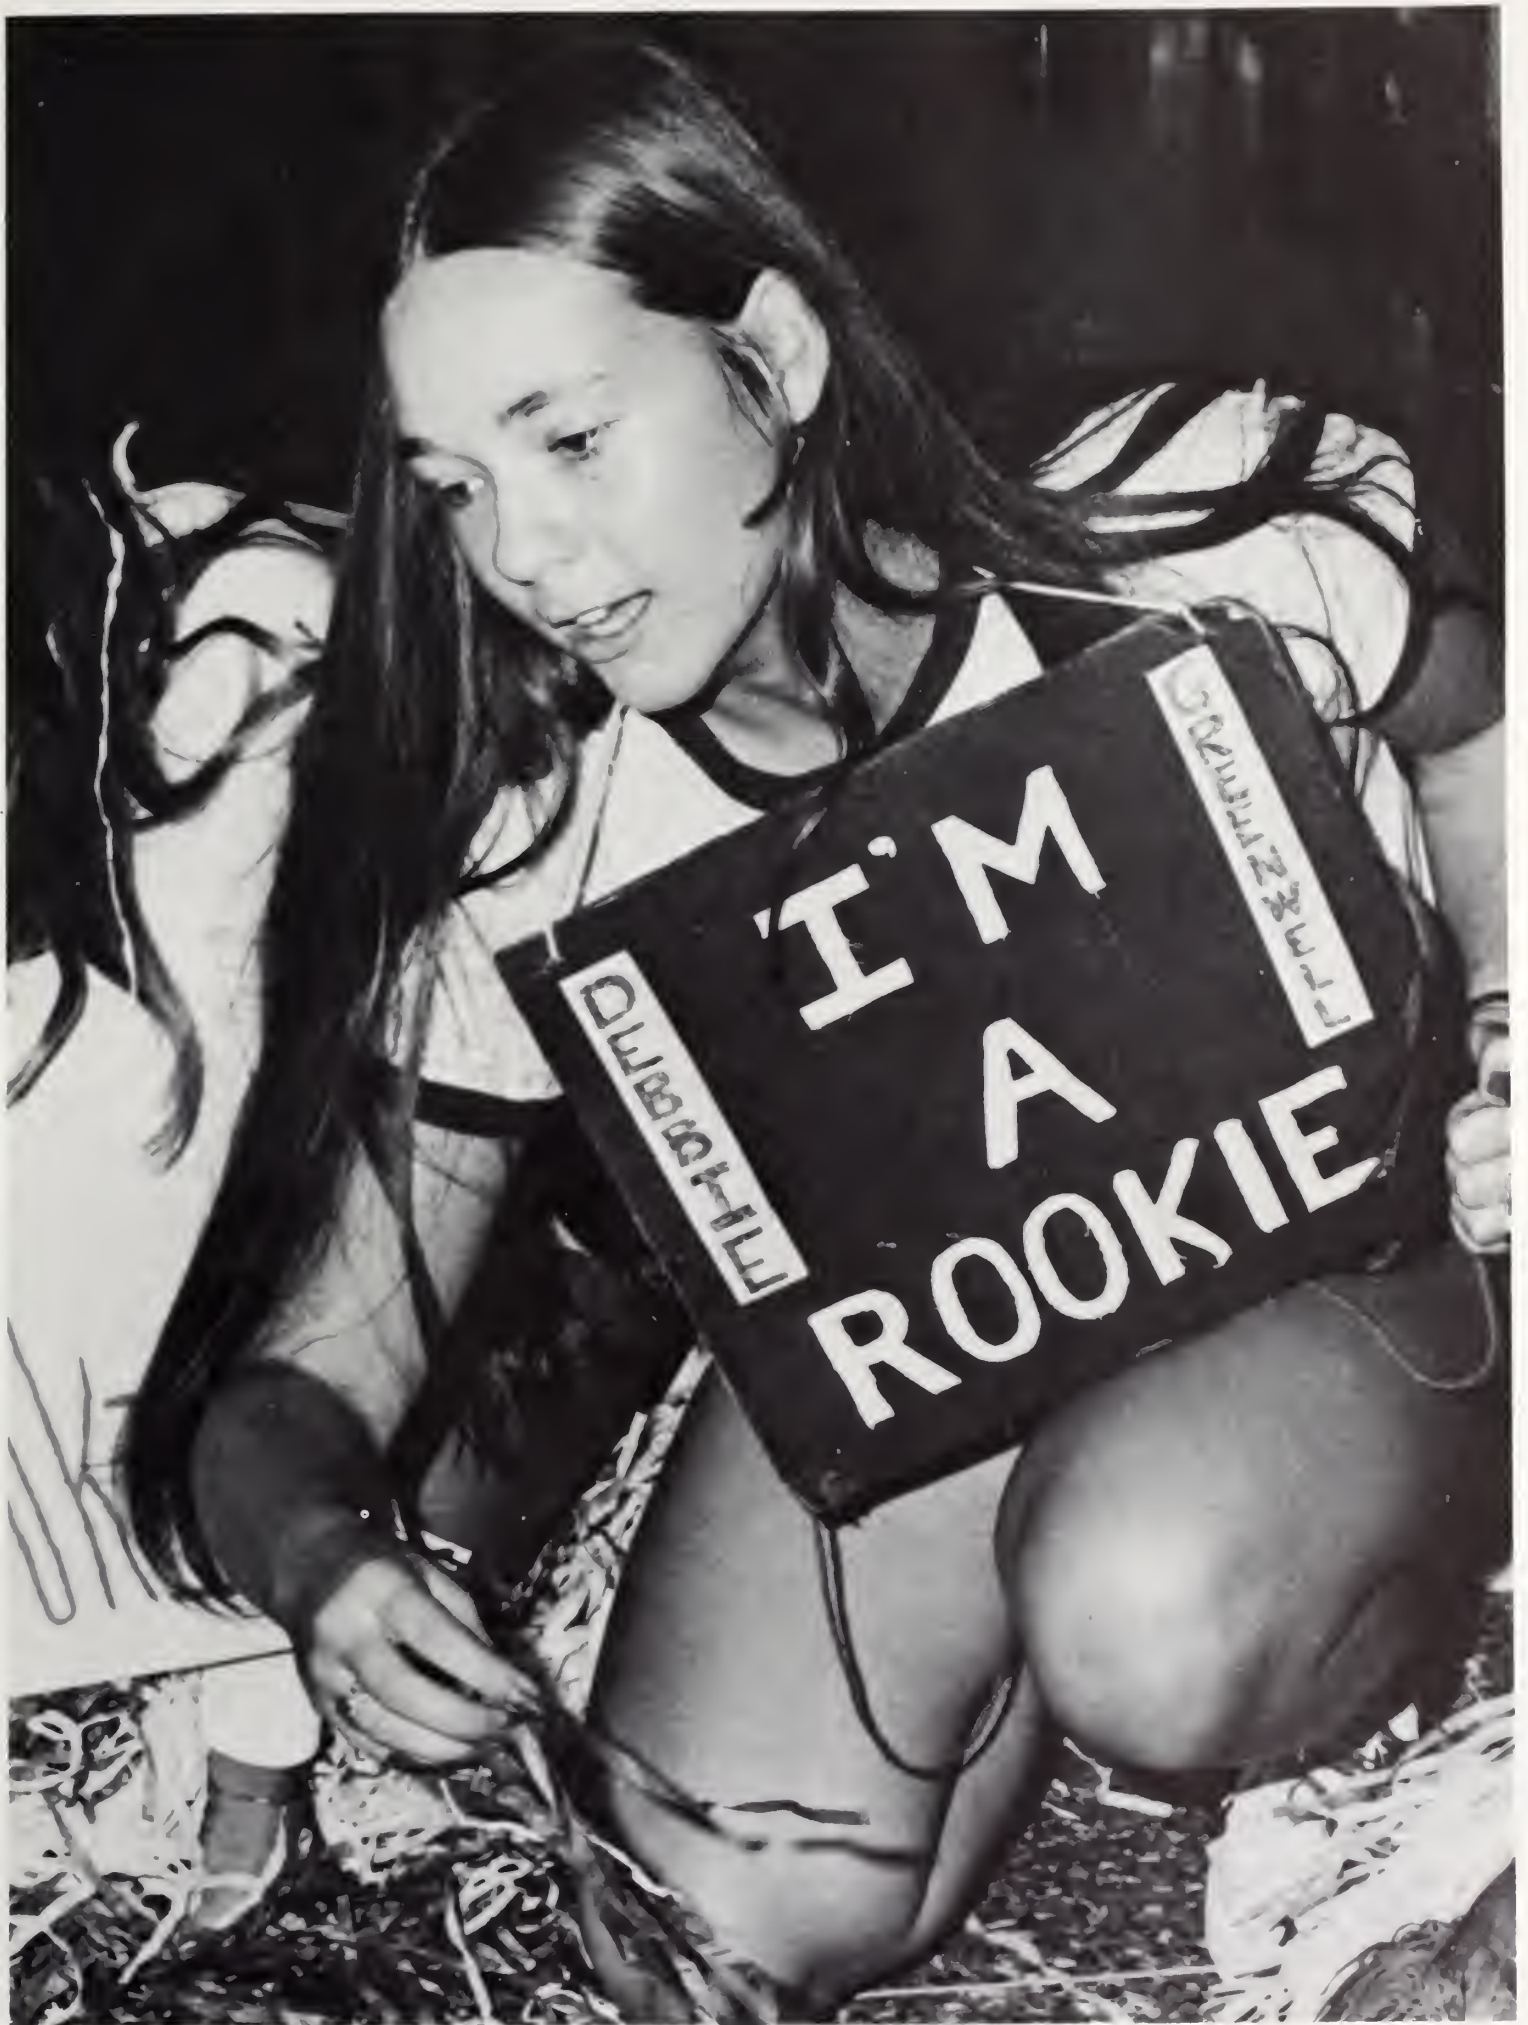

running all the way across campus from the second floor of the Shop Building to the third floor of the Main, but somehow we made it.

As our school days progressed, we remember being taken to the Tech Library to get a book report, but instead, falling asleep. By the end of the year we all had been affected with a rare and deadly disease called spring fever.

Now come graduation for some of us, a new grade level for most, and a sense of advancement for all.

LOVELY Sherrie Geer, is crowned as Tech's 1974 Homecoming Queen by Paul Lewis. Mr. Lewis is the President of the Indianapolis School Board; he has also been PTA president at Tech. Mr. Lewis has three children that attend Tech High School and two who were Tech graduates.

## Titans display talent, Homecoming and abroad

"ROAST Those Marshall-Mallows", was the slogan for Roll Room 7's Homecoming float, judged the best by the underclass members of the Key Club. All all senior roll rooms participated in this annual event. Julie Lewis and Ben Moore display the trophy.

**KATHY MILLER** exhibits her outstanding talent, as she attempts to twirl a fire baton; other twirlers are Jan Berry, feature twirler and Kyle Thompson, twirler captain.

**CARL MICHAELIS**, an honor student at Tech, toured France this past summer. Carl lived with a French family. Here Carl is standing in front of the famous French cathedral Notre Dame.

**CHICO JOHNSON** displays his prize winning ability with his hoola hoops. Chico won First Runner-Up in the National Hoola Hoop Championship. His prize winning routine was broadcast and judged nationwide on the Mike Douglas Show.

Here it is folks, your Tech Career in nineteen easy steps! Begin with number 1 and don't trip. Each word is defined below. Fill the blanks yourself, remembering that the last letter of each word is the first letter of the next word. Try it.

1. A starting student at Tech or one who does everything backward.
2. Students keep assignments in this.
3. This group sends Homecoming off with a bang.
4. Every student should carry one of these to class.
5. What you acquire through learning.
6. Ambitious students exploring the field of teaching.
7. A step beyond the "Teenies Greenies."
8. All home football games are played here.
9. One who puts on a magnificent halftime show.
10. When you've got it nobody can take it away from you.
11. A time when football and basketball games take place.
12. We cheer this gang of guys on.
13. Our outstanding yearbook sponsor.
14. Working their way to the top but not quite there.
15. The military group at Tech.
16. The girls who keep our spirit aroused.
17. You are one of these until you become a graduate.
18. We're all proud to be mighty
19. Those magnificent young people who made it to the top.

I've given up reading books; I find it takes my mind off myself.

Friends, Titans, countrymen, lend me your ears. Look who is graduating after all these years.

Study and work, don't be a flop. Sooner or later you will reach the top.

The brain is a wonderful organ; it starts working the moment you get up in the morning and does not stop until you get into class.

#### RECIPE FOR TECH SPIRIT

One student body full of happiness, Eleven well chosen football players carefully trained, 500 mouthfulls of yelling, Twelve peppy cheerleaders mixed with special power flavoring. Add a world of vigor. Simmer in the football stadium on a cool fall evening. Put all ingredients together and season with excitement. Serve piping hot!

Students sit silently staring at the streaker.

Children are a great comfort in your old age — and they help you reach it faster too.

## In the groove and on the move!

THE HART BEAT is great, Roger A-O.K.

TECH BAND LOOKS on as the Titans push through to victory.

In the groove and on the move describes this year's Tech Marching Band. Along with putting on magnificent half time shows at the football games, the Tech Marching Band was proud to be a part of some extra activities. The Marching Band, performed with many other inner city high school bands at the dedication of the new Market Square Arena. They also performed with over 30 bands at the Ball State University High School Band Day. Following the Ball State University Band Day they were the proud achievers of a second place at the ISMA Marching Band Contest. They also brought a second place in over-all inspection.

The whole marching band put in an extra two weeks of summer band practice. Along with this, Senior Drum Major, David Carr and Junior Drum Major, Vickie O'Neill participated for a week at Smith Walbridge Drum Major Camp. Band Director, Lee Barricklow, also put in a little extra time this summer as he was a teacher at Smith Walbridge Band Camp.

The band summed up their season with a "Football Highlights Show" which included songs from previous games, performances from the "Titanettes" and awards being presented to one year members, two year members and seniors.

## Titanettes on the move

Along with performing outstanding football and basketball halftime shows, this year's Titanettes were really on the move. They participated with the Marching Band at the All City Southport Marching Contest, Ball State University Band Day, the dedication of the new Market Square Arena, and an All City Majorette Contest at Chatard High School.

Besides practicing at the end of the summer, five of the twenty girls attended a week at Tri-State Majorette Camp and

were proud to bring back a blue ribbon awarded to them for their hard work and enthusiasm. They were Kathy Miller—pom-pom captain, Kyle Thompson—twirling captain, Doreen Martin, Reba Sears and Bonnie Thompson.

All twenty girls put in extra time in summer practices and after school sessions to make this year's corps the best. They succeeded very well with the help of their sponsor, Shêila Sullivan. She is very proud to sponsor such a bright-eyed, bushy-tailed group of girls.

# Football team turns out a winner, ends 8-2

The varsity team got off to a winning season this year beating Shortridge in their first game, but losing to Howe in their next game. After that, they won six consecutive games before finally getting beaten by Chataud. It was the first winning season Tech has had since 1965. The Titans had a strong team this year, losing only five seniors from the year before and having eight seniors try out who hadn't played since they were freshmen.

Not all was to the Greencrads' advantage; they were without coach Willie Martin, (who had pneumonia) part of the season. The Titans finished 8-2 for the season.

# Reserves end grind with winning season

The Reserve Football team, trying hard to follow in the Varsity's footsteps had a successful season in themselves. They finished second in the east division of the city with a 6-3 record and fourth in the city overall, with a 6-4 record. The team showed many sophomores as good prospects for the future.

Coach Mel Bowers labeled the team as having a strong offense, which was supported firmly by a good running and passing attack. The defense showed a hard-hitting attack which contributed greatly to the success of the team.

When you take into consideration that the team played only two home games, they turned out a well played season.

# Freshmen have rough season

The Freshman football team finished their season with a 4-4 record with many close losses including that in the final game.

This year's team had a strong defense against a running attack, but when opponents slapped a pass attack on them, they lost out, due to a lack of size. The offense moved the ball very well with many good runningbacks. The backfield was very quick and proved to have many good prospects for next year. They had a little more than average line for a freshman football team.

Contributing to the team's four losses were blocked punts, bad breaks, and mental errors, such as penalties. Over all, Coach John Hurrell feels the team offers many good prospects for the Varsity.

# Key Club ... They are 'Where it's at'

Ever wonder where Key Club got its name? Key is an affiliate of the Kiwanis Club, an organization which tries to encourage youth, and encourage youth it does. The Key Club has been responsible for such things as Homecoming fireworks, canned food drive, gym cleanups, school and community cleanups, to name a few. Key Club has been involved in the community doing such things as the Diabetes Bike-a-thon, ringing bells for the Salvation Army, Toys for Tots . . . and the list goes on and on. When you see the community and the school needing help and getting it, look for Key Club; they'll be there. Shouldn't you?

## Service Club does it again!

3-2-1-Tweet! At the sound of the whistle hundreds of kids from nearby homes and children's homes dashed forward to find the pounds of multi-colored eggs hidden over the broad field. Service Club was there co-sponsoring the Easter Egg Hunt at Sycamore Park. The smiling faces of toddlers shouting, "I found one!" and the discouraged faces of those who

didn't, registered the high's and low's of the event. The members tried their best to help find the well hidden eggs. Finally, after all the eggs were found there was a drawing of tickets, with prizes for the lucky winners.

The Easter Egg Hunt was only one of many activities that Service Club spon-

sored. How about decorating a nursing home at Christmas? collecting food for a needy family at Thanksgiving? the Valentine Tea to honor faculty members? the College Tea giving a preview of college life? the sale of booster buttons? Homecoming Mums . . . Well, you get the Service Club idea!

# Cross Country runners build surprising season

Starting with almost nothing, a coach's dream came true this year for Bruce McGeath, head coach of the Varsity Cross Country Team. With only one returning letterman, and two men who had never run cross country before this year, Mr. McGeath put together a successful team.

The Varsity finished the 74 season with 52 wins and 35 losses. They placed 3rd in the City and 6th in the Sectional. Running in three big invitationals, Tech finished 6th at Washington, 12th at Southport, and 12th at Columbus.

Varsity runners met almost all goals they set for themselves, improving their times all through the season.

The 74 Freshman Cross Country team members proved to be most successful, winning the Washington Invitational, the City and concluding the regular season with 6 wins and 2 losses. James Adams and Dennis McGuire battled throughout the season to be the number one runner. In their battle the two runners tied for first place at the Washington Invitational. McGuire was injured and the rest of the team had a bad day finishing 11th. With regular season meets in between, the freshman team worked their way back up to 3rd at the Columbus Invitational, and they finished the season by taking the city crown.

# Tennis team splits record half and half

The Boys Tennis team had a .500 season winning five matches against five losses. The team consisted of eight players with seven of them returning next year. The only graduating member is number one man Gary Davis who had a 10-0 record in his matches and continued on to the finals of the city tournament only to be beaten in the last match. The number two man Pat Amato continued on to the quarterfinals before losing. The team practiced at Brookside every night when weather permitted. Other players and positions were Joe Phillips holding number three, and number four was Jim Surenkamp, while number five was Mike Long.

## Girls' Tennis starts swinging

The Girls' Tennis Team had a somewhat disappointing season in their first year of existence. Henry Whitesell, the head coach had 21 girl try-outs with 9 making the team.

The top player, Lisa Cooper went to the semifinals of the singles in the City Tourney. Number three player, Bab York won her first-round match in the City Tourney, too. The girls finished 0-3 but plan to have more opponents next year.

(BEFORE) William Morse in his college days, poses with JOHNNY the Phillip Morris midget.

(AFTER) In Mr. Morse's government class, he and Ricky Moore are about to discuss an article on the last session of the Indiana legislature.

This year Tech's History Department teachers have really been swingin' and goin' important places and doing important things. Who would ever have guessed that William Morse was one of the nation's most famous drum majors? He is especially well known on the east coast of the United States for his famous routines. Mr. Morse was one of the first drum majors ever to lead a college band twirling two batons at the same time.

While attending the University of Pittsburgh Mr. Morse became well acquainted with several famous people such as the famous "JOHNNY" the Phillip Morris midget, who recently retired from calling Phillip Morris.

This fall Mr. Morse returned to his old alma mater, the University of Pittsburgh to a marching band alumni reunion where he got out on the field and did his thing again. Mr. Morse is a retired Lt. Colonel in the United States Army.

# English is even more exciting

The new phase elective system the Tech English Department is using had some new additions this year. Literature of Social Responsibilities and Literature of Adolescent Problems; Sports Literature and Animal Stories; Science Fiction and The Supernatural; The Young Man in American Literature and The Changing Image of Women in America; Modern World Literature and African Literature, and The American Dream are among the new courses.

Along with the new courses were three new teachers, Leslie Wright, John Malin, and Mrs. Joyann Middlekauf.

In Supernatural projects such as levitation and a saeance were performed by some students in class. Students really went for Sports Literature and Science Fiction and The Supernatural. As you can tell the English Department is trying to make English an enjoyable subject.

"STIR IT UP AND SERVE IT," is Linda Thomas and Robin Strickling's motto, as they prepare dinner.

# Home Economics establishes a full year

Mrs. Marian Moore, head of the Home Economics Department offers interesting and growing classes to girls and guys. Home Economics groups have won appreciation as they served teas for the PTA, honor society program, and guests from North Central Evaluation Association committee during the year. They served

Red Cross by making clothing for those in need of simple articles. For themselves they developed fine talents in designing pants suits and later advancing toward evening wear and formals.

The Home Economics Department introduced Needle Arts, last semester, a new and exciting class involved in the

fields of needlepoint, crochet, embroidery, knitting, and quilting.

Preparing gourmet specials is just another way of expressing superior talent as the Home Ec. Department cooks up more activity for the student body of Tech High School.

LEROY JOHNSON and Anthony Remberton are ready to serve you in Boys Home Economics.

TO DETRICK HAMPTON, ironing it out smooth is an important task in her sewing hobby.

## Tech 300 gets head start

This year is the beginning of the Tech 300 program. The program has been designed to accomplish four specific goals: (1) improved school attendance; (2) improved student attitudes towards school; (3) improved academic achievement; and (4) increased number of graduates for each incoming freshman class.

There are 10 faculty members and 16 staff members that are presently working with the students.

Donald Q. Daily, a former social studies teacher at Tech for 15 years, is the director of Tech 300. He says, "We want to get kids to attend school regularly, get them interested, and keep them so."

TECH 300 counselor Larry Slaton works with students.

TECH 300 MESSENGERS: Ida Nickson, Tony Carver, Cathy Counciller, Connie Wallace, Barbara Holden.

SECRETARY of Tech 300, Mrs. Polly Nobles, helps Diana Davenport and Frances Paxton.

# House Plan—tried and true

ROLL CALL in the Cafeteria is "on the menu" for hungry House pupils.

During its five years of existence the House Plan has made hundreds of Tech-ites feel "at home".

During the current year about 770 pupils were chosen at random for membership in the group. The purpose, is to bring teachers and pupils closer together. Actually the House Plan is like a school within a school, having the advantages of a large school curriculum and the opportunity to know fellow classmates.

Seventeen members make up the staff headed by John Miner. (See page 161 for photos.)

PUPILS concentrate on a social studies lesson. It's a small world, and apparently a happy one.

**EXERCISE IN KNOWLEDGE TEAM**—FRONT ROW: Peggy D. Smith, Mark Short, SECOND ROW: Beth Wiley, Charles Jackson, Carl Michaelis, Wesley Murphy, sponsor.

## Students struggle hard to win honors

Maintaining a 7.0 average for two or three years isn't easy, but it can be and is done over and over again here at Tech. This good work does not go unnoticed thanks to the PTA which gives various awards each year. Sophomore honor students receive a certificate, Juniors receive a certificate and a silver scholarship pin, and if a 7.0 average is maintained, seniors receive a PTA honor sweater.

Ever turn on the television and see faces that look familiar? Don't be alarmed; it's just the Exercise in Knowledge team matching wits with another school.

This team, sponsored by Wesley Murphy, meets every Tuesday morning during "X" hour, and is quizzed on general knowledge. The questions asked and the information covered are not disclosed until the actual taping of the program.

**SOPHOMORE HONORS**—FRONT ROW: Joy Roberts, Carol Young, Shawn Senour, Dennis Hicks, Sheri Oates, Melody Rohrman, Marcella Smith, Amy Piety. # Exploratory Teachers serve schools

If teaching is your goal, Exploratory Teaching is for you. Exploratory Teaching is a one credit course in which a person may choose the level at which he wants to teach including ninth grade here at Tech. Schools 74, 78, and Roberts School have been most popular among exploratory teachers, but Duane Blankenhorn, sponsor, tells us that one could probably teach at any public school. He also assures us that an exploratory teacher will take on the responsibilities of a college student teacher. If teaching isn't your goal or you haven't decided what your goal is Exploratory Teaching could change your ideas about your life's work.

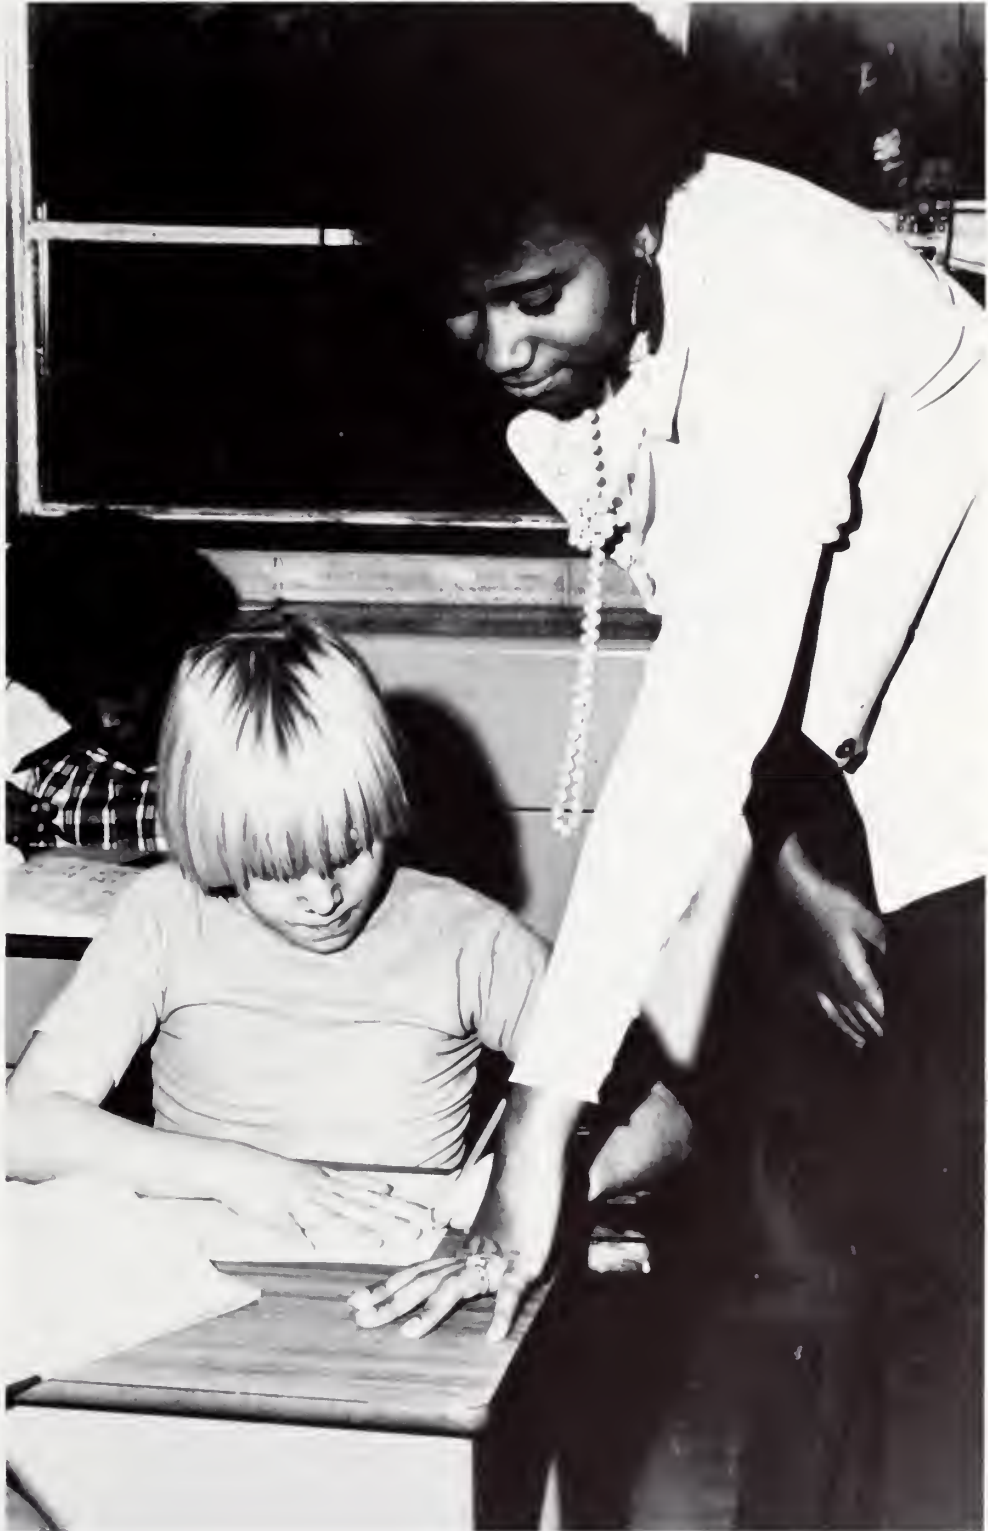

EXPLORATORY TEACHERS Brenda Morgan, Peggy J. Smith.

Student Action for Education, SAE, is a group of students interested in teaching and helping others.

As an after-school project they tutor younger pupils at the Westminster Presbyterian Church. SAE members also serve as hosts to welcome foreign-born pupils to Tech.

The group went carolling December 19 and then enjoyed a party at the home of the sponsor, Mrs. Joan Brown.

# Music Department lightens up Tech

MELODAYRES SING their hearts out for the Channel 8 WISH TV viewers as they perform on the annual Techoir Christmas Concert.

The Music Department took on a big project this year. Not only did they sell candy, for the small ensembles. Hoping to buy an electric piano for department use, they also sold over \$7,000.00 worth of candles. Next year through the profits of this sale, the Music Department will have a new electric piano of its own instead of a borrowed one.

During the Christmas season the Music Department presented Christmas-in-the-Round. The Techoir taped their annual Christmas show on Channel 8 WISH TV with all the small ensembles participating.

The Music Department ended their year with their annual musical HOW TO SUCCEED IN BUSINESS WITHOUT REALLY TRYING.

MR. MOON COUNTS his daily toll of candle money. The Music Department sold 3,000 candles this year in a week and half.

MRS. JUDITH SHATTUCK, KATE TAUBE and Jennifer Faulk inspect the candles before distributing them to students to sell.

MARK RUSH has a promising career as a musician, and as a painter.

## Girls' Concert Club—A gung-ho group

After rushing and making beautiful pastel colored dresses this year, the Girls' Concert Club began their annual debut. Along with all the other performing music groups in the Tech Music Department, the Girls' Concert Club partic-

ipated in Open House, and the Christmas in the Round Show. The group consists of 32 to 33 1st sopranos, 2nd sopranos, 1st altos, 2nd altos. These are the voices that make up that rich mellow sound every day the fourth period in Room 648.

Mr. William Moon is the director of this gung-ho group that is full of spunk and cooperation. The voices of the Girls' Concert Club will help make up the women's section of the Techoir next semester and next year.

**BEFORE PERFORMING** for the Open House audience, the girls freshen up a bit, as they comb their hair nervously for the forty-third time. The Girls' Concert Club performed for the Christmas in the Round festivities also.

# Madrigal group performs city wide

MELODAYRES FRONT ROW: Carolyn Jackson, Cheryl Cooper, Chris Chastain, Sherri Chapman, Janice Berry, Beth Wiley. SECOND ROW: Ronald Lair, Randy Biech, Orron Coleman, Thomas Witsman, John Simpson, Robert Hood.

Melodayres made the "big time" this year singing an engagement before a special audience at the Stouffer Inn. This was only one of the public appearances featuring "A Time for Us", "Sing, Sing a Song" and "Pat-a-Pan". Some of their numbers featured flute accompaniment by Randy Biech.

The group also provided a treat for the eyes, with the males sporting ruffled shirts and the girls looking perky in peplums.

JAN BERRY looks on with excitement as she awaits her cue to sing at Open House. CHRIS CHASTAIN harmonizes with Sherri Chapman and Randy Biech as they prepare to perform for Christmas in the Round.

**GIRLS ENSEMBLE**—FRONT ROW: Samantha Overton, Roberta Wade, Kyle Thompson, Vicki Carson, Alexandra Hong. SECOND ROW: Sherry Greer, Sharon Denkins, Teresa James, Nancy Winkle, Mrs. Kandis Brown, director; Debbie Lewis, Sheila Chapman, Lesa Morrison.

The Women's Liberation is on the move to improve with the dazzling beauty of the Girls' Ensemble. The Ensemble began its year not only with twelve beautiful voices, but also twelve beautiful faces. The Ensemble performed for many organizations during the year, such as Nesco, ladies luncheons and the Mayors' Luncheon.

During the Christmas season the Ensemble went carolling around the campus. After returning from Christmas vacation the group threw a shin-dig at the home of Mrs. Kandis Brown, the director. Last but not least, the Girls' Ensemble looks forward to a successful Spring Variety Show with the Boys' Octette, the Melodayres and the Stage Band.

## Elite vocal groups project special image

The Boys' Octette started this year with immediate programs. They began to perform for audiences as early as October 12, 1974—not even six weeks of school yet. This year the Boys' Octette was formed of one senior, two juniors, and six sophomores.

They worked hard frustrating hours trying to achieve an extraordinary nice mellow sound. Members went to William Tatum's house for a Christmas party. The Boys' Octette ended this year with a two-hour variety show including the Girls' Ensemble, Melodayres, and the Stage Band.

**THE GIRLS ENSEMBLE** perform their monotone angel skit for the Christmas in the Round audience.

**THE BOYS OCTETTE** sang Old Tannenbaum (Oh Christmas Tree) for the Christmas in the Round show.

**BOYS OCTETTE:** William Cox, Rex Mindach, David Lewis, Larry Yarrell, Anson Freeman, Bruce Chaney, Mike Thomas, Jeff Johnson, seated at the piano Thomas Harvey, accompanist.

# "Canimus ex Animo" says the Techoir

Early in the year the Techoir performed for the Market Square Arena opening and for the Indiana Music Teachers' Association at Shortridge High School.

The Techoir held their annual Kick-Off Banquet to get the members acquainted with each other, and to meet the new officers. The officers presented the choir members with a weird symphony. Coke bottles were played by Cheryl Cooper, junior representative; pillows by Chris Chastain, co-president; spoons and balloons by Rex Mindach, junior representative; typewriter by Lesa Morrison, hostess; alarm clock by David Carr, sergeant-at-arms; stapler by Julie Lewis, secretary; and the conductor was Larry Yarrell, treasurer.

The Techoir taped a program on WISH TV and carolled downtown. William Moon was the director.

THERESA JAMES AND Nancy Winkle have a before performance chat as Sheila Chapman looks over the program.

SHARON DENKINS enjoys one of the small ensembles as she waits to perform with the Techoir in the Christmas in the Round festivities.

ROGER HART AND RANDY BIECH kid around with each other before singing for the Mayor's Breakfast.

CAROLYN MARSHALL and other choir members join together at channel 8 WISH TV studio to tape the annual Techoir Christmas Concert.

**TECHOIR—FRONT ROW:** Lesa Morrison, Larry Yarrell, Julie Lewis, Joe Huber, Mrs. Kandis Brown, accompanist; William Moon, director; Chris Chastain, David Carr, Cheryl Cooper, Rex Mindach. **SECOND ROW:** Vicki Carson, Debbie Sanford, Teresa James, Sheila Chapman, Kim Harbin, Alexandria Hong, Samantha Overton, Nancy Winkle, Sherri Chapman, Sherry Weiglein, Beth Aubrey, Carolyn Marshall, Shelly Hacker, Jennifer Faulk, Janice Berry, Linda Whitcliff. **THIRD ROW:** Luangela Wolfe, Kathy Drass, Marianne Hannemann, Teresa Morrow, Sharon Denkins, Jackie Oliver, Charlotte Dimmitt, Kathy Pettigrew, Darcy Rhoads, Suzan Partenheimer, Elizabeth Quintana, Marsha Slatter, Janice Steele, Roberta Wade, LaTonya Bonner, Debbie Lewis. **FOURTH ROW:** William Johnson, Mike Thomas, Anson Freeman, Ron Lair, Mike Chapman, Theodore Cumberland, Jeff Summers, William Ellis, David Dykes, Bill Cox, David Lewis, James Brown, Jonathon Freeman, Carolyn Jackson, Sherry Greer. **FIFTH ROW:** Orron Coleman, Keith Armour, Leslie Hogue, Mike Simmons, Jeff Johnson, Bruce Chaney, Steve Harris, Jim Booth, Robert Hood, Brad Witsman, Tom Howard, Roger Hart, John Simpson.

## Tech Stage Band takes five

This year's Stage Band was as casual as could be expected. Shying away from formal attire such as the traditional tuxedo, the Stage Band's outfits this year consisted of red and white pattern shirts, red vests and tan trousers.

The Stage Band has been included in many important programs. They have performed for the ground-breaking ceremonies of the Merchant's Plaza, and the kick-off banquet for the United Way; they also played for the North Central

Evaluation Committee.

The Stage Band is an instrumental pop group that plays all kinds of dance music, such as **WILL IT GO ROUND IN CIRCLES**, **MAKE ME SMILE**, **SATURDAY IN THE PARK**.

**STAGE BAND—FRONT ROW:** Leonard Cox, Kevin Gartrell, Robin Bruer, Nathan Rice. **SECOND ROW:** Randy Biech, James Booth, Wayne Watson, Thomas Harvey. **THIRD ROW:** Jeff Routh, Anthony Taylor, Ron Wagner, Joe Huber, Robert Greene, Roger Hart, Lee Barricklow, director; David Carr, Tracy Warren, Terri Wagner.

**RANDY BIECH** hooks up his electric guitar to the amplifier while **Wayne Watson** takes a final lick on his guitar pick before performing at Open House.

# String-a-ding—Choir, Ensemble calling

With more program requests, this year's String Ensemble is the largest Tech has had. Ron Nobles who is the director says, "It's the wackiest bunch I've ever had." The String Ensemble is playing more popular songs, such as music from MAN OF LA MANCHA and THE WAY WE WERE. And the talented Mr. Nobles arranges some of the group's numbers.

This year the String Ensemble played for the teachers' Christmas dinner and the North Central Evaluation Team.

If you ever have been in Room 640 the sixth period, the ding-donging that you hear is none other than Tech's own unique Birt Memorial Bell Choir. Few schools have a bell choir at all; we at Tech are very fortunate.

The Bell Choir has played for the lighting of the world's largest Christmas tree (Monument Circle), The Governor's Tea, and many more.

**BELL CHOIR—FRONT ROW:** Cheryl Cooper, Lisa McClung, Samantha Overton, Shelley Hacker, Becky Goode. **SECOND ROW:** Julie Lewis, Kim Harbin, Carolyn Harlan, Charlotte Dimmitt, Debbie Greenwell. **THIRD ROW:** Tom Harvey, Ronald Wagoner, Gary Davis, Carl Michaelis, David Carr, Mrs. Kandis Brown, director.

**STRING ENSEMBLE—FRONT ROW:** Marjorie Darden, Janet Deatrick, Vicki Carson, Lesa Morrison, Pat Amato, Carl Michaelis. **SECOND ROW:** Ron Nobles, director; Mike Chapman, Tim Fuller, Mike Stigler, Beth Aubrey, Valerie McCray, Keith Armour, Steve Scott, David Braden. **NOT PICTURED** Robin DeBurger.

CONCERT BAND—FRONT ROW: Bonita Thompson, Alfenia Martin, Janice Waters, Kathym Jones, Autumn Taylor, Michael Cheatham, Dinah Drinnon, Jane Clark, Mark Franklin. SECOND ROW: Kristi Senour, Sue Ingersoll, Caron Lasley, David Jackson, Stuart Laughlin, Adrian McCullough, Willie Brewer, Glenna Heavrin, Julian Gammons, Cheryl Evans. THIRD ROW: Terri Day, Joy Roberts, Nancy Hapner,

Orville Jones, Bonnie Klippner, Theresa Jordan, Donna Parker, Willie Brown, Daryl Newman, Dywayne Beasley, James Buckley, Mark Taylor, William Graam, Warren Quirk. FOURTH ROW: Michael Amett, Curtis Glenn, Willie Cameron, Kevin Means, Loren Taylor, Michael Simmons, Edward Evans, director.

## Concert Band prepares for Spring Concert

JULIAN GAMMONS plays along with enthusiasm.

BONNIE THOMPSON tootles on her flute.

STUART LAUGHLIN plays a catchy tune on his sax.

The Concert Band, directed by Edward Evans, held eighth hour each year, has worked hard to achieve a good performing sound.

This band is a preparation or training for the many talented persons wishing to continue in the Symphonic Band, Pep Band, or Marching Band.

The Concert Band performs each year at the Spring Concert playing not only classical but more modern tunes such as THEME FROM SHAFT, HOUSE OF THE RISING SUN, tunes of Roberta Flack and more. At this Spring Concert, the Concert Band had a chance to show many capabilities.

SWEET TONES come from Kathy Jones' flute.

"JOSHUA BLOW YOUR HORN" or else Mark will blow it for you.

ROBERTA WADE takes time out as Darlene Litteral toots away.

## Symphonic Band tops with pop music

The Tech Symphonic Band is alive and with it this year. For the first time in a number of years, the band will go to the Central Indiana Large Ensemble Contest hoping to retrieve a first place medal.

The Symphonic Band is a group that meets the ninth period in Room 642. The band is composed of wind and percussion instruments. First chairs in the band make up the wind section of the Orchestra and Stage Band.

The band also performed at grade schools throughout the Tech district, informing the students of the high caliber of music that Tech produces. They also hope to encourage grade school students in music as they began to come to Tech.

SYMPHONIC BAND—FRONT ROW: Jackie Whitney, Debbie Evans, Randy Biech, Alexandra Hong, Ernest Nelson, William Hacker, SECOND ROW: Sue Wester, Tracie Woods, Tracy Warren, Lisa Stinson, Phillip Carbin, Cheryl Cooper, Charlotte Dimmitt, Steven Douglas, Jeff Johnson, THIRD ROW: Kristi Senour, Elizabeth Newell, Lisa Cooper, Terry

Wagoner, David Carr, William Ellis, Thomas Harvey, Leonard Cox, Audrey Armes, Robin Bruer, FOURTH ROW: Darlene Litteral, Roberta Wade, Beth Lyall, Alvin Pitts, Mark Williams, Ronnie Wagoner, Jeff Routh, Anthony Taylor, Patricia Rocks, FIFTH ROW: Lee Barricklow, director; Donald Hapner, Roger Hart, Tim Cooper, Robert Greene.

# Beethoven, Schubert coming up . . .

Tech's Orchestra says "We've come a long way, baby." For the first time in several years they've brought back a first from the state contest at the close of school year 74.

Members of the Orchestra work regularly each day to bring another first back

to Tech at the end of the 75 school year.

And Mr. Ron Nobles who is the director believes that they can do it again.

To let you know just how great they are, they are rated as one of the top high school orchestras. They've even

been asked to play for another high school's orchestra.

The Tech Orchestra consists of 21 violins, 5 violas, 9 cellos, 7 basses, and a full complement of woodwinds, brass and percussion.

**BASS PLAYER** David Braden leaves his bass to take cello lessons from Carl Michaelis.

## Juniors organize for action

The class of '76 is going to be a really together class, perhaps the best Tech has had in years.

The Juniors here at Tech are putting forth great effort toward their senior year.

The Junior Council was selected by fellow junior students to represent the class.

The Council plans activities which they think are good for raising money for the coming class of Seniors. One main event that every student dreams of is going to the Prom.

And in order to have a decent Prom the Council needs money.

With the help of all the juniors, the Council knows they can make the Prom an event to remember.

The Junior Council members meet every Tuesday morning at 7:30.

The Junior Council says, "Come on, Juniors, and let our class of '76 be the best!"

In February rehearsals for Junior Folies, a variety show got under way.

October 15, 1974 was the day that Tech's interested junior and senior students gathered to hear representatives of 27 different universities, colleges and institutions talk about their schools.

Here was the opportunity for the students that weren't sure what college they would like to attend, to make a selection. The speakers passed out many brochures and pamphlets filled with information about the history and subjects available to students who wish to attend.

Created in 1820 by an act of the General Assembly, Indiana University is now ranked the ninth largest university in the nation in terms of full-time enrollment. To approximately 59,000 full- and part-time students, the university offers more than 500 degrees in more than 100 departments. Graduate division

# FLFFFF takes off for distant places

A German Old Woman in the Shoe? A French Mother Goose? Snow Black and the Seven Chicanos? What's this? A foreign story book? Not really, but it was a few of the acts performed by students for the Foreign Language Fun for Flight Fare. (FLFFFF)

This was the second year for the FLFFFF, a program put on to raise money to send students to foreign countries for experience with the language. The subject of this year's show was nursery rhymes.

A few of the other acts were Tortoise and the Hare, Three Blind Mice, Charlie Brown and Lucy, Little Red Riding Hood, French singer and dancer, Edith

Piaf, and of course, Mike Thomas and Tony Miller who were masters of ceremonies.

The groups were under the direction of Patricia O'Conner, Dan Stanley, Mrs. Serine Fine, and Sheila Sullivan.

Mr. Stanley commented that the show raised enough money to help and was worthwhile just for the fun.

Foreign travel is not new to Language Department students. Carl Michaelis spent last summer in France (see page 13). Also last summer eight Tech language pupils and three adult sponsors journeyed to Mexico for a five-day visit. They had earned travel money by selling candy and having car washes.

MIKE CHAPMAN and Denise Browning do Hansel and Gretel, a contribution of German pupils to FLFFFF.

## Language clubs have action-packed year

German Club really got involved during the year as they received a good push-off by their new sponsor, Paula Barbour.

Their Halloween party, the first event in which they got acquainted and organized, was a big success. Their second activity was a car wash and candle sale to raise money to send a student to Germany this year. Various students participated in the Oktoberfest that the Committee for the Promotion of German Culture sponsored at Southern Plaza Shopping Center.

The Spanish Club also had two car washes and a candy sale to raise money for a trip to Mexico. December 14 they attended the International Dinner along with many other foreign language clubs in Indianapolis. They also visited the Chicano area in East Chicago. Back home again, they enjoyed rooting for the Mexican soccer team. Another fun-filled activity of the Spanish Club was their Taco party which included authentic Mexican food and games. Their new sponsor, Patricia O'Conner, really had them on the move.

With all the excitement and activities of German and Spanish Clubs, the French Club was not to be outdone. A dinner prepared to perfection was served by Tech's Cercle Francais at the International Center on October 19. Members were enthusiastic in serving and cooking the delicious meal, with Mrs. Maria Lagadon to lead them to their success. The proceeds were used to help send a Tech pupil in the Foreign Language Department, abroad for study.

# SAO allows for student involvement

Hey, who painted the scoreboard in the Stadium? The same people who sponsored the Woodruff cleanups, organized basketball and Jamboree queen elections, sold Tech buttons, decorated the campus for Christmas, and provided a needy family with food for a happier Thanksgiving. Still don't know? It's the

Student Affairs Organization.

Most people think that if one is not popular one can't be on the executive board, and must settle for roll room representative. This is no longer true. You can help your school! All you have to do is attend three meetings and work a few hours on a project. You may then

chair a committee of SAO.

The SAO board is a hard working organization with hard working leaders as Julie Lewis, president; Kathy Miller, vice president; Teresa James, secretary; and Bonnie Thompson, treasurer. The next time you see something that should be done, don't complain; join the SAO.

# Group works for better human relations

Have you ever wondered who was responsible for bringing eighth grade students on campus? The Human Relations Council is the culprit. This Council, formed to improve relations between people, sponsors many activities for this purpose. Not only do they provide tours for eighth graders, but they also go to Tech feeder schools to give future freshmen an idea of what to expect when they arrive. The Human Relations Council also sponsored two after-school movies, the first being **THE HUNCHBACK OF NOTRE DAME** and the second, **DESTROY ALL MONSTERS** and **MUNRO**.

The Council, sponsored by Mrs. Lois Csiky and Clifton Lovelace, is headed up by Randy Biech as president and Barbara Taube as vice-president, and meets during X hour on Thursdays.

# COE trains students for future jobs

Don't just hang in there . . . swing, baby swing with Cooperative Office Education, "COE" for short.

"This is just the program for any senior with a business education major and marketable skills," says Mrs. Marjorie Parker, co-ordinator of the COE program. COE is an on-the-job training program; some of the biggest businesses of Indianapolis employ the COE students for a year of supervision and training. Some of

our community employers, downtown and neighborhood, offer the pupil his choice of businesses.

COE is designed to help students acquire office experience to the point whereby they will be qualified for immediate employment upon graduation, a promotion, or retention as a full-time employee.

"It is difficult to imagine the clock

hours our coordinators spend with their students, parents, teachers, and counselors. The objectives of our Cooperative Office Education program are to develop leadership ability; to establish realistic training and employment objectives; to create enthusiasm for learning; and to promote high standards of ethics, workmanship, scholarship and character," states Mrs. Parker.

DE—Dale Evans? Duke Ellington? David Eisenhower or Deviled Eggs even? No! It's Distributive Education.

DE is an on-the-job-training program for any junior or senior that have had training in sales and merchandise. Businesses such as Indiana National Bank, and Kroger offices and stores employ the DE training students.

Mrs. Delsie Shoemaker, coordinator, says, "Distributive Education is for any person that is interested in the distribution of goods or services."

DE has a national club called DECA Distribution Education Clubs of America.

The 1975 Woman has a career goal. What's yours? The IOL—Intensive Office Laboratory is a senior course in Business Education. Mrs. Ann Cummins who is the coordinator of this program says, "It's the course where business ed. majors put it all together." It is a program where prospective office workers go to the laboratory for experimentation with their business skills and office procedures.

This is the second year IOL has been offered at Tech, and guess what? This year they've added all types of new equipment, from duplicating machines, ditto, photo copier, to all types of typewriters.

Senior girls looking for a program to put them into a business career should sign up for IOL if they have had at least three semesters of typing and clerical practice.

## Career plans become real at center

Did you know that there is a program on Tech campus so unique that approximately 130 students from other schools are attending it? Do you know who is responsible for the planting of shrubs and trees on campus? No? It's the IPS Career Center. This program offers everything in the way of vocational training from Cashiering to Welding.

The majority of students began as freshmen with Introduction to Industry in which they take six weeks of each course; metal trades, building trades, printing, drafting and automotive trades. Then as sophomores they decide what they like best and specialize in that one field. As if that isn't good enough, the Career Center is adding four new courses to the curriculum. They are Powder Puff Mechanics (for girls only) Small Gas Engines, Amateur Radio and Code, and Home Maintenance. Ithel Shoemaker, director, feels these practical courses will help any student in his everyday life.

## ICT, VICA, Career Cooking make news

ICT—Industrial Cooperative Training program has been here at Tech for about 16 years.

ICT has an enrollment of 25 students for the school year 74-75. The students are employed with 21 different industries, Eli Lilly, Naval Avionics, Community Hospital, and Morris Plan, to name a few. Pupils have classes during the day and a part-time job after required courses are over. This is a daily routine for the ICT students. So you see, good attendance is a necessity.

The ICT Coordinator contacts different businesses to see if they would like to hire a training student from Tech.

If the business accepts, the student goes to work (as Mr. Holmes likes to put it) "to earn while you learn." The main purpose of the job is not only to earn money, but to receive training in an occupation that may be the beginning of the student's career.

Mr. Holmes, who is the sponsor of this program, says that he enjoys working with the students. Also, he puts a lot of time and efforts into his students and their work. Not only do the ICT students get paid, but they get two credits per semester or four per year.

So if you're one of those not planning to go to college, and you're a junior or

senior that has had at least two years of shop, with a good attendance record and average grades, contact Mr. Holmes and maybe you'll be on your road to success.

But you freshmen and sophomores, continue to do your best, and you'll see ICT in your future.

In Career Cooking many enthusiastic students, both boys and girls, learn what it's like to prepare large quantity meals and how to cater dinner affairs.

In December the team got together to cook the dinner for the teachers' Christmas party which honored the North Central Evaluation team.

# Printing Department offers careers

Miehle Offset Press, Letterpress, Linotype, Ludlow, Baum Folder, IBM Selectric/Composer with Magnetic Tape, Stand-alone Manual Composer, IBM Magnetic Tape Selectric Composer and a camera for handset and Ludlow composition are only a few of the printing machines that Tech students are using this year.

The Print Shop has been doing printing for the ARSENAL CANNON newspaper, Athletic and Music departments, PTA, Evening School, and many other offices who desire their skills. The Print-

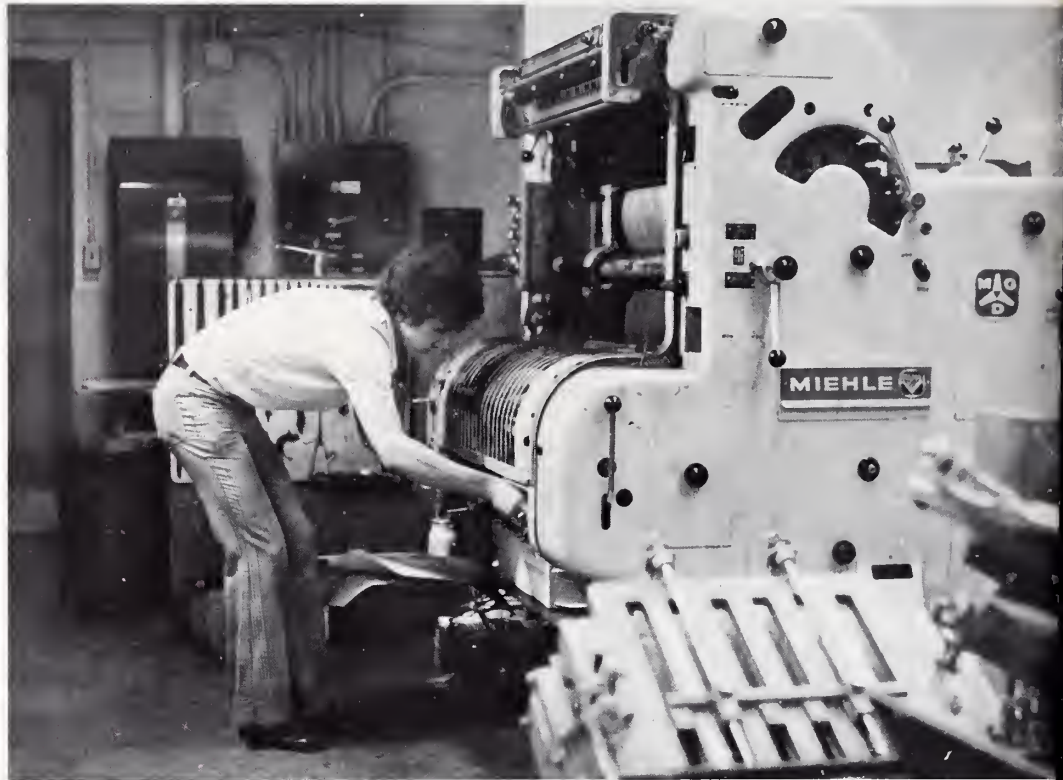

ing Department, now part of the Career Center, is accepting any job that will give its students experience in various fields of printing.

Students are getting experience in color and black and white printing. They have even had the experience and respon-

sibilities of meeting deadlines with the ARSENAL CANNON, and many other pieces of work that will be used on a certain date. This is just another one of the many career opportunities offered by Tech.

MIKE BEACH draws a house plan.

DOUG SIMS puts his ideas on paper.

## Drafting Department produces experts

With the construction of the new proposed buildings, drafting has been a more popular subject this year. Herb Thompson, a Tech graduate, is one of the architects for the new buildings.

Dennis J. Watson last year won a first place award in the Machine Draftsman and Engineer's Contest.

Other awards were given to Jerry Tennant, a junior, and Judy Suit, a senior. The award is given annually to two stu-

dents from Tech by the American Institute of Architects. The two students go to Ball State for a day to attend special classes and lectures to improve their drafting skills.

Interesting field trips are taken in Architecture. On these trips two students take interviews concerning a designated architectural or city-planning project in the Indianapolis area. The program is set up for seniors so that they may have

some experience in the field of drafting, and contact future employers. This year's seniors were Ron Pate and James Herron.

Another program was in cooperation with ICT. Roselyn Tenner and Kevin Simonton were in this program. Roselyn was working at Naval Avionics and Kevin was working at REMCO Hydraulics. They were getting paid and were getting graded for their work.

LEFT is a sketch of the new proposed auditorium. It is one of the three buildings offered Tech. The others are the Girls gym and the Instructional Materials Building. All of them have been well waited for.

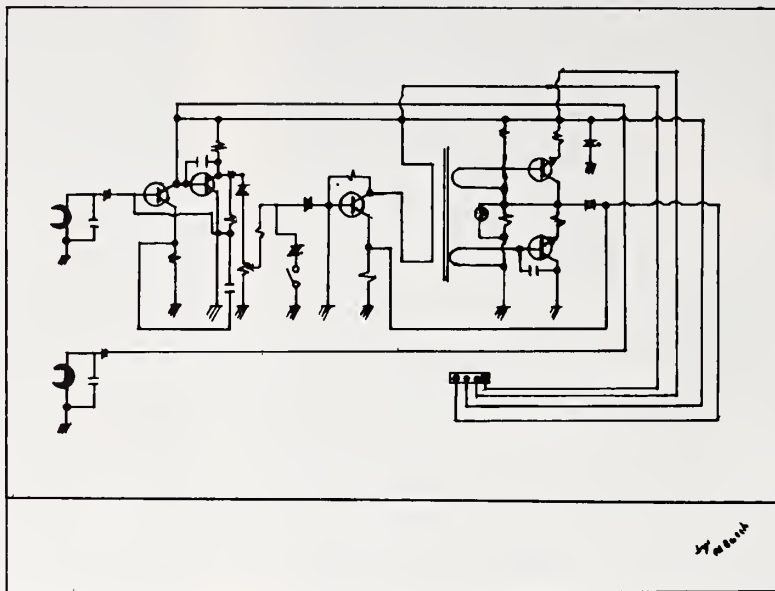

# Electrical Department shows superiority

Tech's Electrical Trades Department continues to show Titan superiority over other schools in the electric-electronic vocational field. Students are offered a choice of courses in the electrical, radio and television, air conditioning, heating and refrigeration or electronic area, one of the purposes of which is to encourage college-bound students into the field of electronic engineering.

The department electronics classes have modernized to such a degree that the advanced students are now being taught the actions and properties of integrated circuitry.

The department prides itself on its excellent equipment and the caliber of its graduating students.

VICTOR MARSHALL shows a classmate how to test a circuit.

# Tech foundry restores Woodruff fountains

FENTON JOHNSON operates the box break.

Vandalism and weather have played havoc with fountains and statuary in Woodruff Place. Tech foundry pupils are occupied with reconstructing some of the historic pieces which cannot be replaced except by custom work. Such a project is excellent experience for metal trades pupils, many of whom are looking forward to jobs in industry.

Any Tech pupil interested in a metal trades job should consider the career of a machinist, a patternmaker, a welder, a sheet metal worker or a foundry worker. All these trades are taught at Tech. A top machinist has learned to use such tools as the tracer lathe and the duplicating mill.

A pattern maker produces core boxes, and metal patterns from intricate layout, estimates cost and studies materials. Indianapolis industry now reports a critical shortage of pattern makers.

Welding covers the latest development and practice including acetylene and heliarc. Wages are very good in this skill.

A sheet metal worker uses both hand and machine tools on copper, brass, steel and tin.

JEFFREY OLIVER and Anthony King work on pipe and roof flange, and a quart measure.

# Building Trades house ready for occupancy

The Building Trades Department offers a variety of courses. Among the many courses offered are cabinet-making, carpentry, masonry, painting, decorating and plumbing.

The many building trades courses offered here at Tech seem very popular with boys and even some daring girls. Enrolled

this semester were 231 upperclassmen and 61 freshmen.

A couple of years ago the Tech Building Trades Department undertook the gargantuan task of building a complete home adjacent to the school on Michigan Street. Today the home has been sold. The only holdup is the waiting for the

loan to go through on the house.

One of the most popular and recommended courses in the Building Trades Department is home maintenance, dealing with the general upkeep of the home. This class can be very rewarding to the homemaker later in life.

## Auto Trades rejuvenates sick cars

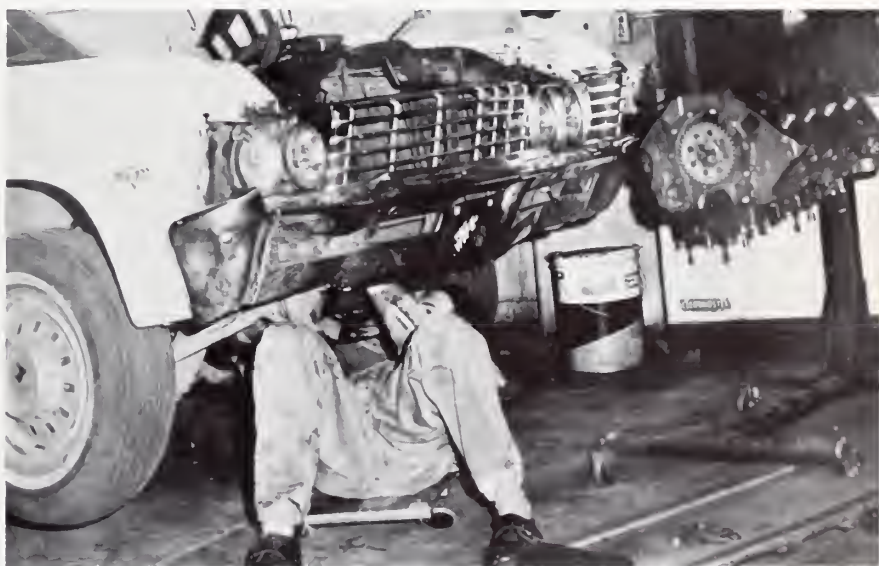

Is your motor run down? Are your brakes tired and effortless? Is your muffler rumbling about how it's time to be removed? Well, if so, check into the Tech Auto Trades Department. With the sagging economy and soaring prices, one cannot afford a new car. So why not make improvements on the old one? The Tech Auto Trades Departments runs a complete auto mechanics shop and does work for faculty, students and the general public for the sake of experience and cost of parts and materials.

Students here at Tech learn all the skills of a service station attendant. Among the many services offered by students are state inspection, muffler renewal, tire repair and balancing, brake adjustment, and shock absorber replacement. The shop also handles all major and minor body work and complete chassis lubrication.

So why not help the guys in the Tech Auto Department in learning the field of auto mechanics and save yourself some money too? Where else can you find a deal like that today?

## Cheering is work and fun

The cheerleaders this year have seemingly done a good job. After all, our teams have had good records this year and they say that spirit helps.

Some of the different things the cheerleaders have done this year were making a theme for homecoming that pulled off great with students here at Tech. The theme was, "Tie Marshall up in Knots". Many people capitalized on this theme by wearing old ties to school.

Another project by the Varsity cheerleaders was going around to the homes of varsity players and decorating the porches with the Christmas spirit.

Cheerleading is not all fun, though; hard work and nights after school result in new cheers and chants in hope of bringing a winning season to our school.

There are varsity, reserve, and freshman squads and they cheer for what they stand for. The cheerleaders cheer at football, basketball, and track. So let's get there and support our cheerleaders and team.

Whooooooooopps.

# Reserve looks young; carries 16-4 record

SECOND ROW: Howard Catt, athletic director; Ernie Cline, varsity coach; Jarv Avery, Ted Fox, Zellie Allen, Greg Brooks, Andrew Smith, Ed McDowell, reserve coach; Dave George, freshman coach.

The Freshman Basketball Team had an exhuberant season taking 13 wins and suffering 4 defeats. The team had good overall speed which was a big asset for the squad. A quick offense made up for a weaker defense, but in a running game, you can expect this. Strong rebounding was a contributing asset. The team hit a 50% clip from the field, while 60% from the free throw line.

# Quick freshman squad imitates Varsity style

The reserve squad finished the year with Coach Ed McDowell commenting the squad had a promising season considering most of their losses came to teams consisting of almost all juniors, while the Titan team consisted of two juniors and nine sophomores.

The team had many outstanding advantages, such as a strong defense which

forced many errors on opposing players. They also moved the ball quickly and did the fast break as much as possible.

Inconsistent rebounding affected the team, but once again a strong defense made up for that. Their all-round best game was against Howe in the first game of the City Tournament after an earlier loss to Howe's squad in the season.

# Basketball team ranks 6th in Tech history 21-4 record

The Tech Titans had a terrific season this year winning their first seventeen games of the season, including the City Championship, before losing to Richmond 57 to 49 on the Red Devils' floor.

The Greencloaks showed much talent this year and looked like a good pick in the State Tourney before injuries affected George Gilbert and Antonio Martin. Martin suffered a broken nose while the classy Gilbert suffered a leg injury.

Both returned for the Sectionals but after losses to Richmond, Kokomo and Washington, the Titan crew just wasn't as

strong as earlier in the season. They beat Broad Ripple in the first game 51 to 49 in a real barn burner in which they overcame a 12 point deficit.

In the second game Lawrence Central fell to the hands of the Titans in a 50 to 47 decision. Then came the finals of the Sectionals. They were up against North Central whom they had beaten earlier in the season 69 to 68. North Central also won the County Title.

The game was exciting with Tech falling 13 points behind in the fourth quarter. But suddenly, a new life was born

and they closed the gap to one point, 58 to 57. Central brought the ball in with :03 on the clock. Gilbert intentionally fouled a Central player who hit both shots. North Central won 60-57, ending one of the Titans' best seasons in years, with a 21-4 record.

The Titans show much potential for next year with 7 players returning. They lost David Lewis, Butch Smith, Dan Boone, Claude Oliver and Bob Kelly, seniors.

Antonio Martin led the team in scoring and rebounding, while George Gil-

bert led in assists. A special tribute should go to Duane "Butch" Smith who played guard his junior year and showed possible All-State potential. Sacrificing this possibility, he played forward this year to fill the spot left open from last year.

Another major point of pride was the crowds. With the gym filling up many times, the spirit rose high.

Let's keep it till next year.

# Girls volley to victory

This year the Girls' Volleyball Team immediately started their season with a winning streak. Their record was 10-3 losing only to Broad Ripple, Warren Central and Manual in the City Tournament.

"The girls advanced to the Sectionals this year by beating Franklin Central, although they were a very tough team," explained Mrs. Mary Lou Manka, coach. Disappointment met their efforts in the next game when they lost to Manual.

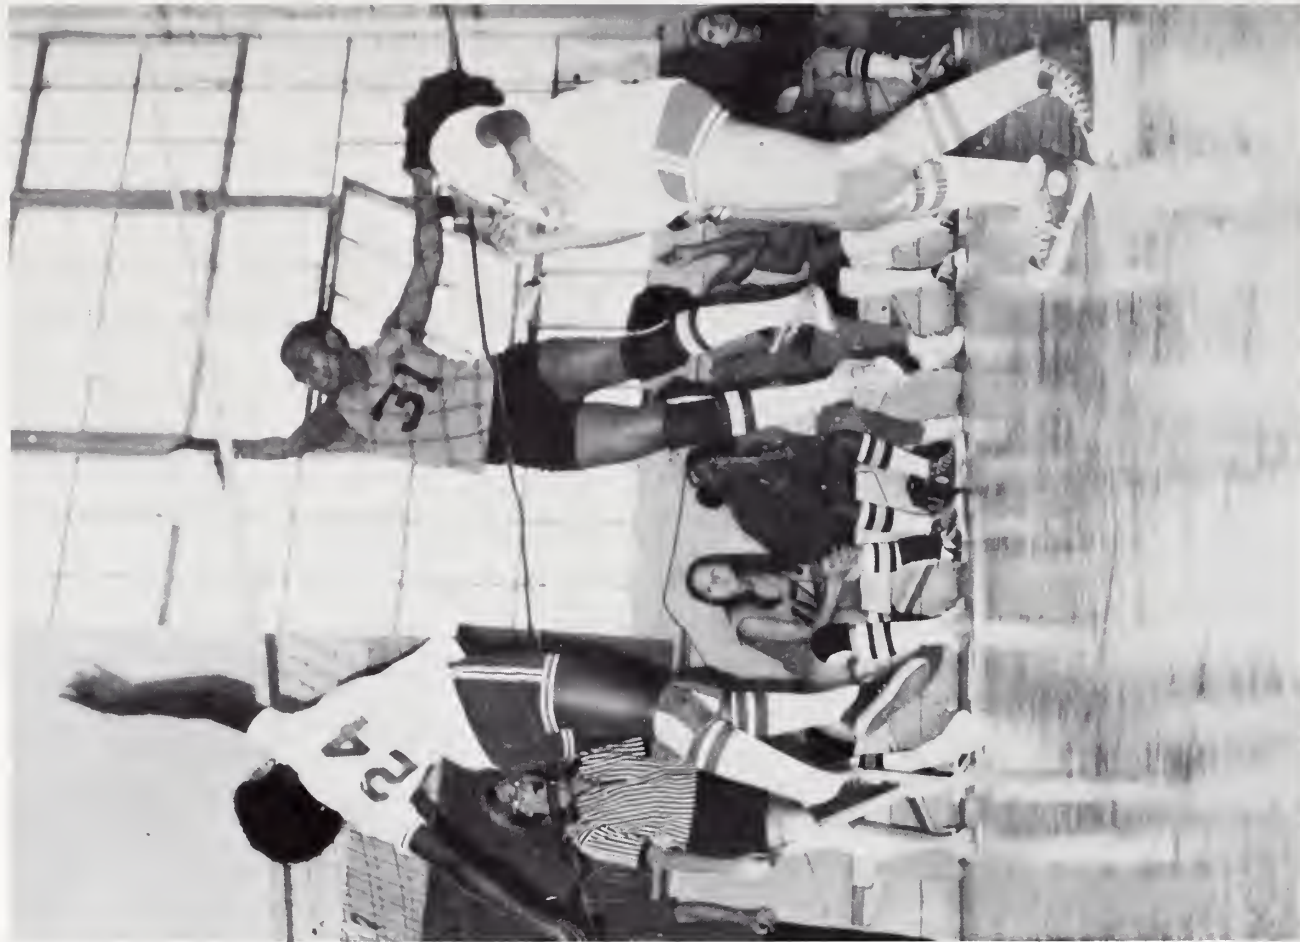

This is the third year since the Girls Volleyball team was formed. They have maintained an excellent record of 26-6.

The number one player on the team this year is none other than Tanya Jackson an all-around good athlete. Tanya is presently a sophomore at Tech; she still has two years of hard work ahead for the Tech Girls' Volleyball Team.

THIRD ROW: Susan Jahinke, coach; Vivian Williams, Jameszetta Taylor, Leslie Green, Linda Belton, Diane Patterson, Ada Johnson, Pat O'Connor, assistant coach; Loleta Brinkley, manager.

The Girls' Basketball Team took on a big change, going from five games last season to 14 games this season and adding a reserve squad.

The team had a height advantage over almost all teams played, which led to an attack of working the ball inside. The team also ran the fast-break as much as possible. Defense showed to be a strong point of the team's attack.

Next year's plans call for a state tournament for the girls' teams, which brings girls' basketball one more step toward being another high school sport. Changes from last season were the ruling out of the 30-second shot clock, no more shot on every foul, and no over-and-back. Now girls have the same rules as boys.

# Varsity wrestlers go far—pin opponents 10-4

The Varsity Wrestling Team finished the season with ten wins and four losses. They were fourth in the Sectional, with Dwayne Engram and Eugene Johnson placing first, and Kenny Lee and Steve Rodrigues placing second. All four proceeded to the Regionals.

In the City Tournament they finished fourth in a tough battle for the first four spots, losing first by only eight points. A change of possibly one match could have given them a first.

A morale-building feature of the season was the advent of the Tech-Mates, a feminine cheering team exclusively for wrestling matches.

The varsity will return 12 wrestlers next season and draw talented grapplers from the reserve squad. They lost a potential headliner near the end of the season. Andrew Fawkes was hospitalized.

# Reserve, freshman wrestlers place high in competition

This year's reserve squad had a strong 5-3 record losing to the city champs, Howe, in one match and also losing two matches to county schools who had gained experience in junior high wrestling. A lot of inexperience was a big hold-back for the reserves, but they did show strong potential. Half the team were freshmen.

They had five wrestlers placing second in the city. They were Glen Smith, Tom Darden, Doug Sims, James Bell, and Ron Clark. Overall the team placed fifth in the tournament.

The Freshman Wrestling Team had a

spectacular season this year finishing with a 7-0 record, but placing fourth in the city.

During the season the team showed strong balance, with good potential. Coach Francis Knue felt that if they stuck together they could go far. Plenty of talent was displayed as Ray Robinson, Dave Wythe and Tom Neffle all took seconds in the city and Jeff Lorick took third to back Tech.

The team felt its overall best match came against Pike.

## Science classes regroup with new head

DEANA ROZZEL and Lisa Arterberry carefully follow instructions in dissecting a yellow perch.

After 35 years of teaching at Tech and 11 years of serving as head of Tech's Physical Science Department, Mr. Louis Allen retired last year. With 15 years of experience as head of the Biological Science Department, Mr. John Farley took over the job.

Not only did Tech obtain a new Department head, it also united the Science Department for the first year. Tech had been the only school in the city with a divided Science Department. Mr. Farley said that although the changeover proved more hectic than expected, he feels that he can cope with the job satisfactorily.

In recent years there has been a decline in enrollment and two of the science classes, Advanced Physics and Advanced Chemistry, had to be dropped from those offered. But most of the traditional science classes remain.

THEN SAID JESUS UNTO HIM, Put up again thy sword into his place: for all they that take the sword shall perish with the sword. Matthew 26:52.

## Start your day with fellowship

If you're the type of person that enjoys discussing the Bible and talking about things that happen today, then you should be a member of Tech's Prayer Circle.

The Prayer Circle meets daily at 7:30 in room 563. They open their meetings with a prayer followed by a few songs from one of the popular hymn books. After a ten minute singing period they all have a discussion on the theme from the series of booklets that they use to study from the Old and New Testaments. Presently they are studying Thessalonians. Then they close with prayer.

This year the Prayer Circle had a Christmas Party and Gift Exchange.

Prayer Circle is open not only to students but to adults as well.

# 1-2-3-x-y-z Math for you and math for me

This year the Math Department is on the move to improve. The Math Department has set up a math lab with mini-calculators, tape recorders and other essential things for math students that need help in math or who just like the course. Math teachers took turns in assisting the students in the mini-lab.

During the year, new math courses were being formed for the advanced stu-

dents. This year for the first time there was an Algebra IIg class for the advanced freshman algebra students. If the course proves to be successful, similar classes will be formed.

Next fall the department will adopt new books for the whole department.

This is the first time in five years that Tech has had an XYZ club. Wondering what XYZ is? Well it's a math club that is

open to any math student here at Tech.

Wondering what the XYZ club does? Well, they had a car wash in November, and they've sold Tech booster buttons during the City Basketball Tourney.

XYZ meets 10th period every Thursday. Anyone interested in math and doing some of the far-out projects that no one expects XYZ to do, see Mrs. Walker who is one of the co-sponsors.

# Students enjoy their workout in gym

Tech is out to please students and make them better people in adult life. If you don't believe it, take a good look at the Physical Education Department. James Leap, head of the department says the staff is out to introduce a sport which can be carried over after high school. While most P.E. students at other schools are sweating away five days a week, Techites are playing bumper pool, air hockey and ping pong three times a week and working on the really rough skills only twice a week.

Still disbelieving? Observe the Drivers Education program here at Tech, the only city school to have a trailer. The trailer simulates driving conditions to improve skills before actually driving. If Tech Drivers' Education students aren't good drivers it isn't because they weren't taught.

NEAL COWARD, Anthony Kendrick, Joe Brown and Mike Stigler have a good workout on the weight machine.

## ROTC ranked number one in city

This year, Tech again has the largest ROTC unit in the city. Normally each school that has a Reserve Officers Training Corps is formed into a single battalion. But since Tech has such a large unit (328 cadets) they were allowed two battalions. This year they also have had two commanders. C/LTC Richard Wilson commands the first battalion and C/LTC Sue Harding, the second. Tech's JROTC was rated number one after marching in the Veterans Day Parade on November 11. Under the two commanders, there are also the two hard-working staffs of each battalion. Some of the duties of the staffs include taking care that the records are kept on each cadet, maintaining the security that is needed, taking care of and cleaning the Barracks and the surrounding area.

## ROTC competes for another year

This year's drill team is again out and performing in various competition meets. This year's Boys' Varsity Exhibition team is commanded by C/CAPT Rick Wilson with C/CAPT Daniel Heavrin and C/CAPT Lance Whitfield as co-commanders. The Girls' Exhibition Team is commanded by C/LTC Sue Harding and C/CAPT

Rhonda Huff. The Boys IDR Squad is commanded by C/SFC Jim Heavrin and C/SFC Gene Waters. While also performing in their specified teams, some members are part of the Knock-Out Squad. This squad goes against about 50 other cadets from other schools present at the

meets.

The Rifle Team also competes with other schools in firing the .22 caliber rifle. The team fires their rounds, an accumulative score is tallied and the highest score is declared the winner. Commander of this year's team is C/MAJ. Greg Childs.

**RIFLE TEAM—FRONT ROW:** C/MAJ Greg Childs, C/CAPT Toni Freeman, C/CAPT Larry Harrell. **SECOND ROW:** C/CAPT Mike Alexander, C/CAPT Russell Blackwell, C/CAPT Phillip Weaver.

## Msg. Oliver Teacher at Tech

It is with deep regret that friends of MSG Willie Oliver, an instructor at Tech's ROTC since fall of 1972, learned of his death on February 8, 1975. With his passing, there was left a void in the hearts of the many friends, associates, and cadets he had at this school. He is remembered for his driving spirit and his instinct for perfection.

MSG Oliver first started teaching in the Indianapolis School System September 1, 1967 at Crispus Attucks High School. He was there until the fall of 1972 when he began teaching at Tech. For the school year 1973-74, he was the Senior Army Instructor for the Tech unit. He was also the sponsor of the boys' varsity exhibition and IDR drill teams. With his instinct for perfection, he guided the drill teams well as the corps. He was preparing for a drill meet in Ft. Wayne and the AFI when, on Saturday, February 8 he suffered a massive heart attack. He will be missed, but MSG Willie Oliver will remain in the hearts of all who knew and loved him. Our deepest regrets go to Mrs. Oliver and family.

## Tech girls have firsts in city

This year, Tech again has a great color guard and the commander is C/SFC Mike West. The other members are C/SFC Steve Wrenn and C/CPL Marvin Marshall. The color guard presents the colors at all sports events, PTA and some school board meetings. The color guard has also marched at the State Basketball Sectionals, Regionals, and Semi-State games. At some of the drill meets the color guards can participate in a competition with each other for awards.

This year's city brigade commander is the first girl in history of JROTC to hold the office. C/COL Vickie Chalifoux says that she is really honored to be this year's brigade commander and proud to be the first girl to obtain the rank. She hopes others will follow.

Vickie oversees the administration of the eleven Indianapolis public schools which offer ROTC. She organizes activities such as dances, parades, parties, staff meetings and the Annual Formal Inspection. Those plans are made with the guidance of Col. Don Clark (ret.), director of Army instruction, and with the help of Vickie's staff.

C/LTC Patricia Wilson is the first adjutant to the instructors of all the ROTC in the city. Her job includes writing out part-times, taking care of roll books, picking up mail, and posting important information on the bulletin board in the Barracks.

She also sets up appointments for the cadets who wish to see Major Miller, the Senior Army Instructor (SAI). Her position is a first, and she says that it is an honor and privilege to have received it.

# Chess for champions—pawn-pushers too

Chess “nuts” roasting o’er a problem board, John Kern keeping all the scores . . . Though it’s been said many times, many ways, Clever “Checkmate” to you.

Bobby Fisher may have faded a bit in public interest since he won the world crown, but Tech’s pawn pushers are just as avid as ever.

Under the sponsorship of John Kern, Tech’s team has played a full schedule of matches, some for practice and others in competition with other schools. The top eight players, (rated on a point system), made up the varsity team; ranking below them were the reserves. Both groups competed with other schools. Others met for practice.

Mr. Kern also headed the district and state contest at Tech. These were played on Saturdays in March and April.

The bowlers don't compete with other bowling leagues private or otherwise; they compete among themselves. The bowlers' averages range from 185 to 68. A perfect score is 300. The bowlers meet once a week and bowl from about 4:00 to 6:00, so if you would like to join the bowling team, contact Kent Demmary, the club's sponsor.

## Art students enter many contests

This year Tech's Art Department, which is headed by Mr. Kermit Swenson, was involved in many contests and exhibits. The commercial art classes entered the annual Christmas Poster Contest and 500 Festival Contest. Other Tech art students displayed their talented works of art at the Ayres Art Exhibit held

February 22 to March 1, and at The Indianapolis Museum of Art from February 25 to March 31.

The Visual Design classes were called upon to use their creative ability to design the billboard which appeared on the corner of Michigan and Arsenal. These

classes also made directional signs for their assigned areas during the Indiana Art Education Association meeting which was held at the Mariot Inn on Shadeland Avenue. Many of Tech's art teachers attended. See page 175 for Art Club picture.

# Hiking and spelunking: Hiking Club

Members of Hiking Club have charged off to the natural surroundings of Indiana for another year. A trip was taken to Monroe State Park. The trip was a cross-country hike through the park in late fall. Another trip at Geist Reservoir was a hike in the first snow we had this year.

With unmarked trails and the guidance of Jeff Routh, hiking members found themselves in the middle of a swamp. After all of the confusion, the hike took off onto a cross-country trek—actually they couldn't find the trail. With a snowball fight (boys vs. girls) and something to eat, everyone found the way back to the cars.

Another trip was spelunking at Sullivan's Cave. With John Williams, sponsor, and Francis Knue, guide, Hiking Club is an active and an exciting group.

**HIKING CLUB FRONT ROW:** Frank LaFara, Brad Witsman, John Williams, sponsor. **SECOND ROW:** DeDe Deatrick, Pat Amato, Becky Goode, Jeff Routh.

## Tech photographers visit state parks

Tech's Photography Club has been alive and moving this year. With hiking trips to state parks and spelunking trips at well known caves of Indiana, members of the club have enjoyed themselves greatly. The first trip taken was to Turkey Run State Park in early fall, in order to photograph the season's beautiful scenery. Club members hiked to the famous suspension bridge and the old covered bridge farther down Sugar Creek.

Another trip was taken to Clifty Falls State Park in late fall. Since the fallen leaves had covered most of the trails everybody followed a small creek that flows into the Ohio River. After running into a cliff the hikers had to make the decision of going up, or going all the way back around. So everybody went up (and down also). After that challenge was met, lunch was the next thing on the schedule. After lunch they drove around and viewed the remains a toranado had left when it passed through earlier.

Spelunking trips were guided by Francis Knue, and the last trip was a joint trip with Hiking Club. Anyone interested in photography should join this exciting and interesting club. (Group picture on page 175)

Y-Teens is a club at Tech which consists of all girls at the present, but boys are welcome too.

Y-Teens is part of Young Women's Christian Association of the United States of America. The purpose is to bring together people of different races so that they may join in activities for the dignity of all.

The Y-Teens wants to involve youth in leadership and decision making. They want to help people in the community—both young and old.

The group meets every Wednesday at 3:30 with sponsor Mary Jane Marthin.

They not only help others feel welcome, but they have fun as a group with parties, dances, bowling, tennis, and in the summer, activities at the adult Y. No matter what color you are, you can learn to know and like your fellow man by experience in an enjoyable way.

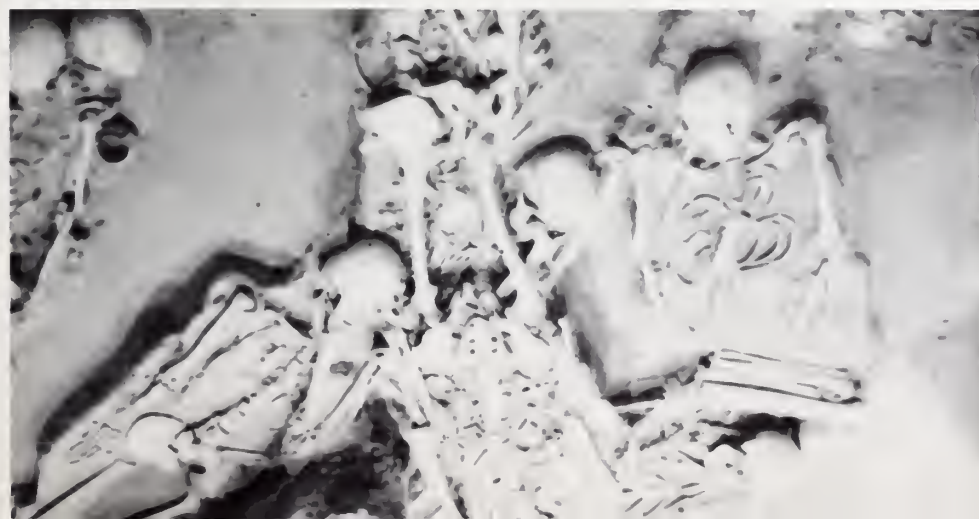

# Anthropologists really dig bones

**ANTHROPOLOGY CLUB—FRONT ROW:** Dean Cooksey, Charles Long, Greg Childs, Connie Begley, Carolyn Jones, David Stiffler, Debra Sanford. **SECOND ROW:** Orville B. Rising-Moore, D.V.M., sponsor; William Gary, Robert Mendenkill, Edwin Hartle, Curtis Gilbert, Kenny Williams, John Tincher, sponsor.

Tech's anthropologists really get their kicks out of shovels and picks. With trips to Mounds State Park and Dickson Mounds Museum in Illinois, anthropology became popular with many members of the club. At the trip to Mounds State Park the club visited many of the mounds in the area to determine the difference between man-made mounds and natural hills. At Dickson Mounds Museum they saw films and artifacts of Mississippian Indian group that lived in that area of Illinois.

If you are wondering what Anthropology is, it is the study of man and his development. There are several students interested in this study. The Anthropology Club's sponsor is John Tincher. Mr. Tincher is a well known anthropologist and has a site named after him, Tincher Site, which is located in Illinois.

# Dedication common in Speech Team

It takes dedication to be a member of the Tech Speech Team. Speech Team members "rise and shine" at 4:00 in the morning, ride to some obscure school, search seemingly for hours to find a particular room, and give the same speech four times. Team members face wind,

rain, sleet, and snow to win the sought after award, the blue ribbon.

This year Speech Team sponsored their annual book sale outside the English Office and a bake sale at the Tech speech meet to boost the treasury. These funds pay for gas which is used in driving to

and from speech meets and for part of the expense of the spring banquet.

The Speech Team, sponsored by Mrs. Alice Goodrum, does, in her words, "very well" at all speech contests, but with such dedication how could they do otherwise?

BRUCE PILLOW seems amused among cheering Speech Team members.

PEGGY SMITH, Ruth Reek, Mike Greene, Kathy Miller, and Bruce Pillow grasp the first place trophy earned at Tech Speech Meet with pride.

To be a member of the National Forensic League is quite an honor. People in this league are speakers who have proven themselves at speech meets.

In order to become a member of the NFL a person must attain twenty-five points. These points are earned by speaking at meets. Each time one speaks he gets points for it according to the rank he received. Number of points varies according to the category entered.

Each year more speakers here at Tech attain this honor. To celebrate their accomplishments, members gather for a grand ol' time at an annual party.

Members are pictured on this page. Others who qualified for membership are: Cecelia Carter, Fannie Cox, Kimberly Ferguson, Jay D. Harlan, Peggy D. # Three for fun is Drama Club play bill

Thespians and Drama Club members have brought joy and entertainment with three comedies. The three short plays, "S\*M\*A\*S\*H," "Lovely Story," and "Venus Figurine" were shown selected students of specially picked English classes. The directors of the plays were Rick Moore, Robin DeBurger, and Carolyn Marshall. They were sponsored by Judith McBride and Stan Minks.

The first of the three, "S\*M\*A\*S\*H" was a take-off on "M\*A\*S\*H." (Mobile Army Surgical Hospital). The leading parts, Hawkeye, Trapper, Frank Burns, and Hot Lips were played by Rick Moore,

Rick Briley, Mike Thomas and Beth Wiley. Other parts were played by Frank LaFara (Klinger), Mike DeBurger (General), Becky Goode (Dish), Vernon Cox (Radar), and Robin DeBurger (Chaplain).

"Lovely Story" was a skit taken from the Carol Burnett Show, a take-off on "Love Story." The main parts were played by Mike Thomas (Oliver Harvard IV), and Robin DeBurger (Jenny Cavilarie). Other parts were played by Victor Marshall (Oliver's father) and Mike DeBurger (Doctor).

The final play, the "Venus Figurine,"

was also a skit taken from the Carol Burnett Show. It was a play using the characters of Sherlock Holmes (David Holloway) and Doctor Watson (Mike DeBurger).

Other parts were Moraraity (Vern Cox), Carolyn Marshall (Mrs. Pott), Alan DuPriest (Dare), and Ermine Robinson (Girl).

Pantomimes were performed by Rick Moore, Beth Wiley, Mike Thomas, and Eva Hill. Through all of the difficulties the show did go on and everyone enjoyed it.

LOVERS Robin DeBurger and Mike Thomas argue with parent, Victor Marshall in "Lovely Story."

FRANK LAFARA, Becky Goode, Allen DuPriest, and Vernon Cox take Thespian oath.

ROBIN DEBURGER and Judith McBride swear in new Thespians.

S\*M\*A\*S\*H unit goes to work.

DAVID HOLLOWAY (Holmes) shows Mike DeBurger and Vern Cox the priceless Venus Figurine.

## Cannon sits

The Cannon Office has done it again! Meeting deadlines, reporting, doing lay-out, and just going crazy is all in a day's work in the Cannon Office. But through all the pressure both the newspaper and yearbook still get printed.

With advisers pushing to meet deadlines, trying to get information from teachers, and attempting to cooperate with the student body, Cannon staffers find publications an enjoyable subject. If you know anyone that is friendly, excited about school affairs, interested in expressing his feelings, telling it like it is, or willing to do something out of the ordinary, he's probably on Cannon Staff or should be.

Staffers will do anything from typing out a story, to exploring the attic in the West Residence, to staying after school till six o'clock. Working on the yearbook and newspaper is hard work, and a staffer has to be very devoted.

MRS. BETTY ROWLAND, secretary, cheers Santa. BECKY GOODE, newspaper photo editor, shows Frank LaFara how to do the Bump. ALL WORK and no play is out of character for Kathy Sullivan, yearbook page editor.

MR. T. was not a very good boy! MISS J was not a very good girl, but she tries to fool old Santa. DAVID HARWELL, newspaper page 3 editor, checks a reference before going to press.

*We appreciate our readers! C. Tresslar*

CANNON NEWSPAPER STAFF—FRONT ROW: Michelle Michaelis, Glenna Heavrin, JoAnn Thomas, Kathy Miller, Becky Goode, Donna Adam. SECOND ROW: Stephen Sumner, Doreen Martin, Debbie Lewis, Beth Lyall, Carolyn Marshall, Christine Graham. THIRD ROW: Nancy Eaton, Kristi Senour, David Harwell, Victor Marshall, Joe Pitts, Barba Wooten, Randy Porter.

*Thanks for a great year! Kathy Miller*

## for candid

For example, this article you are reading now probably has been typed at least twice, corrected by various people, and put on this page by a page editor. And the pictures had to be taken, developed, dried, printed, dried again, accepted by the page editor, cropped and sent to the printer. But, if a photo is not accepted by the page editor, it has to go through the whole process again.

After all that is done and the layout has been finished, it has to be proof-read and mailed to the printer. And the Cannon Office has to do this for 184 pages of the yearbook and 14 editions of the newspaper.

This is just part of what the Cannon Office does in one year. It is hard work, but everyone on staff has fun. And the job would never get done without the assistance of Cecil Tresslar, Bernice Jones, and Mrs. Betty Rowland.

MR. TRESSLAR exhibits his fancy finger skill (behind Ed Hartle's back). BECKY GOODE'S specialty may be negatives, but she takes a positive approach to her typing. MRS. ROWLAND has seen two publications through a busy year.

*It's been a hard year! C.*

# Tech toasts NCA evaluation team

The North Central Association is an organization which evaluates the systems of member schools. Membership in the North Central Association is optional. This evaluation takes place every seven years.

This year a staff of twenty-six on the North Central Association team evaluated Tech. The team was composed of professional teachers, administrators and superintendents.

The faculty at Tech was asked to give their own evaluation of our school before the evaluation team arrived.

The North Central Association then took these evaluations and compared them with their own. The evaluators were interested in the buildings, the supplies, the classes, the training of the teachers and the extracurricular activities. One compliment that the North Central Association paid was that we at Tech have a commendable faculty.

On February 17, the entire faculty met to discuss and observe in depth the association's evaluations. From these evaluations we at Tech will be able to make improvements in our school.

MRS. ELIZABETH WILSON, John Malin, Bruce McGeath, and Mrs. McGeath enjoy a little dancing as the North Central Evaluation team is honored.

GUEST CONDUCTOR, Mrs. Ann McDaniel directs the Stage Band with fabulous results.

DEAN OF BOYS Fredrick Kelly and his daughter Katrina take time out to pose for a picture at the faculty Christmas party.

BELL CHOIR is honored to play for the teachers' Christmas party, with the North Central Evaluation team as guests.

PRINCIPAL RAY REED wishes North Central Evaluation team members and teachers a Merry Christmas.

DR. JAMES RLENTSCHLLER, chairman, represents the evaluation team at the Christmas party.

## DESIDERATA

**G**O PLACIDLY AMID THE NOISE & HASTE, & REMEMBER WHAT PEACE THERE MAY BE IN SILENCE. AS FAR AS POSSIBLE WITHOUT surrender be on good terms with all persons. Speak your truth quietly & clearly; and listen to others, even the dull & ignorant; they too have their story. ❀ Avoid loud & aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain & bitter; for always there will be greater & lesser persons than yourself. Enjoy your achievements as well as your plans. ❀ Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism. ❀ Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment it is perennial as the grass. ❀ Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue & loneliness. Beyond a wholesome discipline, be gentle with yourself. ❀ You are a child of the universe, no less than the trees & the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. ❀ Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors & aspirations, in the noisy confusion of life keep peace with your soul. ❀ With all its sham, drudgery & broken dreams, it is still a beautiful world. Be careful. Strive to be happy.

# Baseballers strike out with 5-13 record

Varsity baseball at Tech High School suffered a first in the history of the school. Records show this season to be the first time there were more games lost than won. The season record was 13 defeats and 5 wins. Conditions accounted for many of the problems. Rain during the season prevented the team from having an opportunity to play at home. All games away, on whatever diamond, were dry enough. Many games were close and Coach Moreman felt if these had been played at home the scores would have been reversed.

A fine group of returning players

makes the coming season look very promising.

Graduating members were Dennis and DeWayne Graham, Byron Davenport, Robin Woodcock, Mike Schartz, Tony Beverly and Kurtis Roots.

Dennis Graham won most valuable player award.

Tech's Reserve had a season of about .500 finishing with six wins and seven losses, a better season than the year before. Considering they had seven freshmen, a disadvantage against older teams, they're still building up for the later years.

DANNY BOONE pokes another hit, going for another run.

# Young golf team starts rebuilding

PHIL COOK waits patiently before going to his next match.

The golf team got off to a winning season this year, knocking off their first two foes. Then inexperience got the best of them; they didn't do much winning after that. But they stayed in there trying.

The team was led by Mike Greene and Phil Cook who put out their best. The team placed thirteenth in the city.

Golf is a sport that requires a lot of concentration as well as skill.

This year's team had nine players, with a slim turnout, about a third the number for outlying schools. Next year let's see all you swingers out there giving it a try. Take it from a golfer; it really is fun.

# A Faculty Zodiac

## ARIES—MARCH 21 TO APRIL 20

Our Aries is from the Physical Science Department. Mrs. Pauline Caldwell is a perfect example of the Aries personality. Her aggressive enthusiasm and fiery temperament keep her pupils guessing what to expect next. Her wonderful originality and pioneer spirit make her a fine and interesting leader.

## TAURUS—APRIL 20 TO MAY 21

Art Department representative Marian Hamilton exemplifies the Taurus person. Although hard to influence, being strongly self-willed, she is affectionate artistic, excelling and loyal; yet Miss Hamilton will temper her ideas and expectations for students with practicality.

## GEMINI—MAY 21 TO JUNE 21

Our Gemini representatives are Mrs. Francois Miller and Richard Allen. Mrs. Miller of the Mathematics Department and Mr. Allen of the Biology Department have chosen their professions well because Geminis are well informed. Although both feel the need for a change once in awhile, this restlessness keeps the Math and Biology classes on the move and interesting.

## CANCER—JUNE 21 TO JULY 23

Moon child Louis Pence is a fine example of the Cancer personality. Being responsive to people and patient, he is perfect for his job in the dean's office touching people's lives each day. Mr. Pence's changing moods make him fun to be with.

## LEO—JULY 23 TO AUGUST 23

Mrs. Odessa Hill of the Home Economics Department is a Leo. A Lioness will sharpen her claws every day even though, with her warm and generous personality, she seldom uses them. She's proud, queenly and dynamic. If clawing will push a pupil through to success, you can count on a lioness to do the clawing.

## VIRGO—AUGUST 23 TO SEPTEMBER 23

Never ask a Virgo like John Williams of Introduction to Industry if he expects perfection. You'll without doubt get an affirmative answer. Mr. Williams encourages all his pupils to seek perfection and is helpful enough to aid them in this endeavor. Like most Virgos he is industrious and thrifty, and therefore makes a fine addition to the field in which he is working.

#### PISCES—FEBRUARY 10 TO MARCH 21

Walter Davis of the Social Studies Department and William Stewart of DOT are Pisces. People of this sign are sensitive and idealistic and love the outdoors. Our Pisces keep their classes and work as changeable as their emotions which play a great part in their lives.

#### AQUARIUS—JANUARY 20 TO FEBRUARY 19

With an ever changing, renewing personality, Shelia Sullivan of the Foreign Language Department keeps her Spanish students interested. She is scientific and socially aware, a great coach of the majorettes and of students in their everyday life.

#### CAPRICORN—DECEMBER 22 TO JANUARY 20

What better place to find a Capricorn than in the Business Education Department! The practicality of the business man suits Michael Cecil perfectly. Nothing can stop the goat. He'll climb over any obstacle taking his class with him, and he'll be disappointed and pitying if any one of them fails.

#### SAGITTARIUS—NOVEMBER 22 TO DECEMBER 22

Mrs. Kandis Brown of the Music Department expects her pupils, like herself, to aim high and reach their aim. Mrs. Brown, like the true Sagittarius, is the philosopher of the zodiac. Don't get the idea that she is stuffy because her Sagittarius razzle-dazzle and impulsive ways make her as changeable as the nature which she loves.

#### SCORPIO—OCTOBER 23 TO NOVEMBER 22

Ask a Scorpio person a direct question, and you'll get a straight yes or no answer. So it is with Health and Physical Education representative, Ed McDowell. Don't expect to slip by this one with sloppy behavior. He's excelling and expects others to be, and will show his explosive temper which Scorpions are famous for if he feels a Titan isn't doing as well as he or she can. His quick wit and decisive mind make him an object of affection for many on campus.

#### LIBRA—SEPTEMBER 23 TO OCTOBER 23

Thomas Danheiser, head of the Tech English Department is a Libra to perfection. With delicate balance and desire for harmony so common with Libras, Mr. Danheiser keeps the English Department in perfect equilibrium. Mr. Danheiser is intelligent and honorable as are most Libras. He also enjoys music and fine art.

## A LIBRARY OF MESMERISM AND PSYCHOLOGY.

Complete in two 12mo Volumes of about Nine Hundred Pages.

EMBRACING THE MOST POPULAR WORKS ON THE SUBJECT. BY THE MOST DISTINGUISHED AMERICAN AND EUROPEAN AUTHORS. THE WHOLE ILLUSTRATED WITH APPROPRIATE ENGRAVINGS.

PUBLISHED BY FOWLERS AND WELLS, 303 BROADWAY, NEW YORK. PRICE BY MAIL, THREE DOLLARS.

"Prove all Things."

THE PUBLISHERS have brought out in two substantial Volumes, of about Nine Hundred pages, elegantly bound in Library style, the most popular works on those interesting sciences. No single work of equal value, on the subjects treated, has ever been issued from the American press, or indeed from any press—these volumes forming, as indicated,

### A COMPLETE LIBRARY OF MESMERISM AND PSYCHOLOGY.

It is but a few years, comparatively, since these subjects were brought conspicuously before the people. The "Influence" which is defined by one or the other of these titles, MESMERISM, or PSYCHOLOGY, has been known to man since the world began; but it had, until the time of MESMER, 1774, been regarded as miraculous, and unaccountable. But the developments of Science, since that period, have given shape and tangibility to that which was then so wonderful and mysterious. MESMERISM is now a definite truth; a fixed fact, invulnerable alike to the attacks of ignorant bigotry and learned sophistry, and challenging the most searching examination and the most thorough investigation. When fully understood, the truth and utility of these new sciences will at once appear the most simple and sublime.

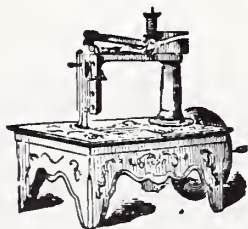

To obtain this work by return of the FIRST MAIL, OR EXPRESS, enclose the amount, \$3 00, in a letter,

And direct the same, postpaid, to } FOWLERS AND WELLS,  
808 BROADWAY, New York.

FOWLERS AND WELLS have all works on MESMERISM, PSYCHOLOGY, PHRENOLOGY, PHYSIOLOGY, PHONOGRAPHY, HYDROPATHY, and the Natural Sciences generally. Agents and Booksellers supplied on the most liberal terms. AGENTS wanted in every State, County, and Town. For particulars, address the Publishers.

## FIRST PREMIUM PIANO FORTES WOODWARD & BROWN.

WOODWARD AND BROWN were awarded the FIRST PREMIUM for their Pianos at the last Great Exhibition and Fair held in Boston by the Massachusetts Charitable Mechanic Association, their competitors having been the most distinguished makers in America, including the late Mr. Jonas Chickering, President of the above Association, to whom was assigned the second premium.

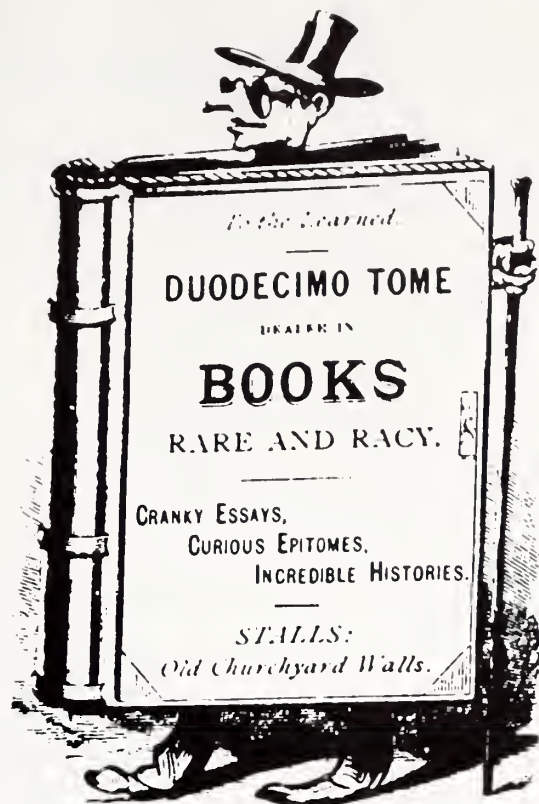

W. and B. also received the first premium at the late Worcester County Fair, held in the city of Worcester, over all competitors, thus uncontestedly proving the great superiority of their Pianofortes; and in addition to this they have received numerous flattering testimonials from various institutions of the unrivalled excellence of the instruments manufactured and exhibited by them.

Encouraged by such opinions from the best judges in the country, and aided by twenty years' practical experience, W. and B. confidently invite purchasers and dealers to inspect their stock before making selections.

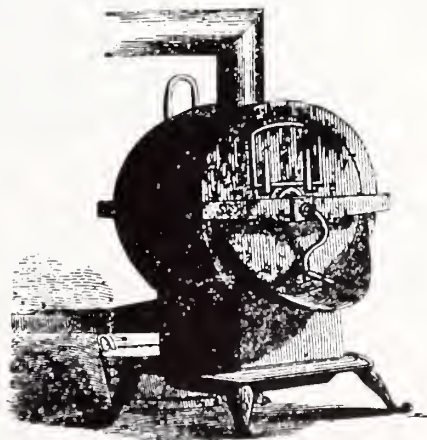

Every instrument will be warranted to give perfect satisfaction or the purchase money will be refunded.

Second-hand Piano Fortes taken in exchange.

**NO. 1 WASHING MACHINE.**

## J. T. KING AND CO'S. PATENT WASHING AND DRYING MACHINE

Is no longer an experiment, having been fairly and faithfully tested during two years in some of the best Laundries in the United States. Devoting our whole time to perfecting the different Machines, we have taken few steps to bring them before the public, yet we have sold a great many of them, and received numerous recommendations from perfectly reliable persons, similar to the following:

PUBLIC WASHING AND BATHING ESTABLISHMENT.  
New York, September 16, 1855.

DEAR SIR:—The Patent Washing Apparatus you put up in the Public Washing and Bathing Establishment, Nos. 141 and 143 Mott Street, gives general satisfaction; unlike all other Washing Machines, it works as well in practice as theory, and I take pleasure in recommending it to the public. The principle upon which it operates, I believe to be the only correct one to purify the fabric thoroughly, without injury. The clothing being alternately in steam and ends, the steam opens the fibres of the fabric, which allows the alkaline properties of the suds to neutralize the grease, when the dirt rinses off without difficulty, and the constant escape of steam carries off all impurities.

It is invaluable to the Institution, not only on account of the great saving of labor, but enables us to furnish each bather with towels as thoroughly purified as when new, no matter how dirty they may have been; and as there is no rubbing, pressure or friction in its operation, it is less injurious to the clothing than the old process.

# Is there life after high school?

"Congratulations," they said. "This isn't the end...it's just the beginning!" They've said it a thousand times at a thousand graduations. While many young people just like you sat there thinking, "Where do I go from here?"

Where *do* you go for challenge? And opportunity?

Go Navy.

If you qualify, you'll get some of the best training available in highly skilled job fields. From missile technician to nuclear propulsion.

And you'll live a little, too. Travel. Work hard. Even swab some decks.

A good job. And a good life. The Navy: It's a good deal.

# Congratulations to the Class of 1975!

Completion of high school represents an important milestone in your life. Your diploma signifies many hours of conscientious studying on your part.

In the years ahead, you'll look back on these days as very important ones. Because it was during this time you learned not only how to think clearly, but how to think for yourself! We at RCA know your dedication to learning will serve you well in the years to come.

Our warmest congratulations and best wishes to each of you.

**FUTURE EDUCATORS OF AMERICA** (formerly SAE) hold a committee meeting. Janice Waters, Charlotte Dimmitt, Phyllis Newton, Debbie Sanford, David Harwell. (Story on p. 45)

Old fashioned steel engravings in this book were reproduced from the **WATER CURE JOURNAL** of 1853 from Harper's sixth, seventh and eighth readers, published 1872, and almanacs of the period.

**FELLOWSHIP OF CHRISTIAN ATHLETES**—Front Row: Johnny Sykes, John Brinkley, George Gilbert, Steve Rodrigues, Danny Boone, Claude Oliver, Ernie Cline, sponsor. SECOND ROW: George Chatman, Don Turner, Dave Lewis, Antonio Martin, Bob Kelly, Greg Barnett, Duane Smith.

Once again, the time has come upon us to collect our memories.  
We, the mighty Titans, have surpassed another year,  
We have been taught ideas and facts and have used each in our own way.  
And upon these ideas we shall build our futures.

In the beginning we started with nothing but the air we breathe,  
The ground we stand upon and the appreciation of our loved ones.  
This is what we started with, but now each of us is prepared  
And willing to further our knowledge for ourselves and others.

Each of us stands for his own beliefs,  
But all of us stand for our historic and powerful school.  
For it shall prepare us all for the future,  
No matter what it shall contain, we will face it with faith.

Within this school alone we have faced sorrow and happiness,  
Life and death, victory and defeat, and all the expectations they may contain.  
It has taught us to love one another and listen to others,  
And above all, has prepared us for life.

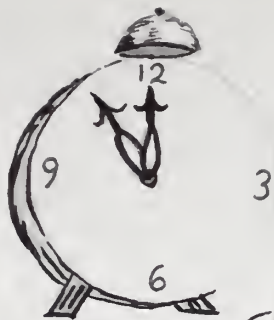

Some of us have more years to realize this;  
Others already have the knowledge of these facts,  
And all of our followers will have this great opportunity.  
No matter how many or how few, the facts are hidden and there to be found.

I for one, am proud of Tech High School,  
For it contains within it the tools we need for life.  
And it has proved itself of this task for sixty-three years,  
And is still advancing for the years to come.
